

CONFUSION of CREATION

How interesting are the workings of God! He takes the nucleus, the cell, the molecule and the protoplasm and forms staggering miracles. He even takes bodies who have gone almost to Hell and makes men out of them. The laboratories and the human bodies are His work shops. It was He who pulled the switch that set it all to work.

True science and true religion never conflict. God does not contradict Himself. His words and His works harmonize. Modern knowledge compels the revision of the theory that the earth is flat and that the sun daily revolves around it. Yet, it remains true that... "In the beginning God created the heavens and the earth." Religion once declared the work of creation was completed in six days of twenty-four hours each, and outlined in detail the creative process. With increased knowledge teachers are much less dogmatic as to time involved and procedures followed. God is still saying... "My thoughts are not as your thoughts, neither are your ways my ways."

His church is a good place to learn that fancied discords blend in harmony. Increasing numbers of people are able to see through His microscope... "tongues in trees, books in running brooks, sermons in stones, and good in everything." Every scientific finding by man is rooted in God. This is the confusion of creation.

Adult Center Reopening Set April 4

A committee of four men has been given the job of dishing up a suitable program for the scheduled reopening of the Adult Recreation Center on April 4.

Named to the committee by Recreation Director Frank Carpenter were H. M. Haynes, Chris Jones, Armour Taylor, and James L. Daniels.

The Adult Center will be completely refurbished and "ready to go" at that time, Carpenter said. It was gutted by fire early on the morning of Jan. 23. Most of the interior of the main recreation room was completely destroyed as were most of the items of furniture in the room. Other parts of the building were scorched and suffered heavy smoke damage.

Quota Busters Complimented by Drive Leader

"Quota busters" are showing up all over the place in Torrance's Red Cross fund campaign residential solicitation, Chairman Mrs. James H. Van Dyck, 2554 Torrance Blvd. said yesterday.

First over the top was division No. 612, located in North Torrance, and headed by Co-colonels Mrs. Dale Sutton, 3743 W. 176th St., and Mrs. Isaac Isaacson, 17326 Glenburn Ave. The workers in this division have reported \$219,900 collected, or 115 per cent of their \$190 quota. More contributions are being made, Mrs. Van Dyck said, which will push the record even higher.

Second in with over 100 per cent was division 632-Y, headed by Mrs. William Herrmann, 1405 Crenshaw Blvd. This division is working in the downtown residential district, and has reported \$635.25, or 106 per cent of their \$600 quota. "There's more to come here," says Mrs. Herrmann.

The latest 100-per-centers were Division 634-W, headed by Mrs. Robert Lampson, 20806 S. Western Ave. Their record to date is \$202.23, or 128 per cent of their \$165 goal—with some call-backs still to be made. They live in the Shoestring Strip.

Mrs. Van Dyck congratulated the honor divisions for their fine showing, and thanked the people of Torrance for their generosity to the Red Cross appeal. She said more residential divisions would join the "Quota Busters" club this week, and urged the volunteers to make their calls as soon as possible.

The residential "Quota Busters" have played a leading part in raising Torrance's total to \$6,748.82 to date, Mrs. Van Dyck said. City goal is \$11,825.

Civilian Workers In California Hits 4,735,000

Employment gains of about 8000 in the construction industry and 4000 in the manufacturing industry more than offset losses in agriculture, trade, and government and sent total civilian employment in California at mid-February to an estimated 4,735,000 persons.

This total, said a joint statement released this week by Directors James G. Bryant of the State Department of Employment and Paul Scharenberg of the State Department of Industrial Relations, was approximately 8000 greater than the employment figure at mid-January.

The number of unemployed persons also increased in February, totaling 228,000, or 4000 more than in the preceding month. But unemployment this February was 19,000 below the February, 1952, level.

California's civilian labor force, which includes both the employed and unemployed workers, was estimated at 4,963,000 last month, 12,000 above the January level and 164,000 higher than in February of last year, the Department heads reported.
