# President's Influence

Senator William Knowland, Republican ty morale. Now, he seems to be getting into Majority leader in the Senate, says prospects for President Elsenhower's program are getting better all the time. He also believes that the Concress will never proceed to President to the Pressure he can get to get his way on Capital Concress will never proceed to the Pressure he can get to get his way on Capital Concress will never proceed to the Pressure he can get to get his way on Capital Concress will never proceed to the pressure he can get to get his way on Capital Concress will never proceed to the pressure he can get to get his way on Capital Concress will never proceed to the pressure he can get to get his way on Capital Concress will never proceed to the legislative fight, swinging and putting all the pressure he can get to get his way on Capital Concress will never proceed to the legislative fight, swinging and putting all the pressure he can get to get his way on Capital Concress will never proceed to the legislative fight, swinging and putting all the pressure he can get to get his way on Capital Concress will never proceed to the legislative fight, swinging and putting all the pressure he can get to get his way on Capital Concress will never proceed to the pressure he can get to get his way on Capital Concress will never proceed to the pressure he can get to get his way on Capital Concress will never proceed to the pressure he can get to get his way on Capital Concress will never proceed to the pressure he can get to get his way on Capital Concress will never proceed to the pressure he can get to get his way on Capital Concress will never proceed to the pressure he can get to get his way on Capital Concress will never proceed to the capital Concress will never pro this Congress will pass enough of President Eisenhower's program to meet the approval of the voters in the country.

Chairman Leonard W. Hall. Hall says President Eisenhower will go on television to support his program and that this will lend considerable weight to the effort to put it through Con-

ress at this session.

It is true that President Eisenhower has gone into action on a scale which he did not gone into action on a scale which he did not employ last year. The President spent his first year in office woolng Congressmen, inviting them to the White House and building up Par-

Evidently, the President, and Knowland, among other Republicans, feel that the fate Other optimist statements have been coming from Republican leaders of late, such as the one recently by Republican National dent's broad program for social and economic right and is partly in the position of having to win a battle within his own party to win the battle for his party in the November elec-tions. It is probably accurate to say that his chances appear to be better as time goes on. At least the President seems to be exerting more influence on Capitol Hill than he has at any time since his inauguration in January, 1953.

# Cancer 'Blocking Agents'

Surgeon-General Leonard S. Scheele, of the U. S. Public Health Service, said recently there is some prospect that "blocking agents" will be developed to attack cancer. He said these agents would strike diseased tissue but would not attack normal tissue.

Scheele did not make sensational claims al-houghe said the chemical approach to cancer was a distinct possibility. He merely said, in sting what he thought would be the next divances of medical science, the prospect that a chemical treatment of cancerous tissue would soon evolve.

At one point, Scheele made the following recast: "Scientists in some of the nation's "major problem concerned, he said, is to reat medical research centers pursued new get women to come in for examinations."

any part of the body and 'blocking agents' that will effectively attack those cells . . . . "

• Scheele also reported there was a sin

test to detect cancer of the uterine cervix in an test to detect cancer of the ucernic cervix in an early stage and that treatment at an early stage was practically 100 per cent successful. This cancer often goes into an incurable cervical cancer, but studies according to Scheele, show that cervical cancers remain in the curable stage for as long as five or six years.

# On Hammers and Nails

Three psychologists at Purdue University say that despite the old theory, one does not need a small hammer to drive small nails. The three psychologists did a bit of research on this issue tecently in an effort to dispreve the line of some hardware salesmen.

They came to the conclusion that the salesman is not necessarily, correct when he says a small hammer is best in driving small nails. After much objective research, the psychologists came to the conclusion that a large hammer is best for large nails, but that it is also good for small nails.

#### Super Highways Lagging Postal Rate Increases

President Dwight D. Eisenhower has recommended a \$225,000,000 increase in Federal spending for highway construction. Though the President did not identify his proposal as a pump-priming program, the highway construction project could amount to that even though not designed to be that.

We believe a highway construction program is perhaps the best way to achieve constructive pumping priming. With the number of aito mobiles on the road increasing by the millior every year, and the miles travelled also soar

every year, and the miles travelled also soar-ing, it has long been obvious that the nation's highways are not keeping pace with the in-creasing volume of travel.

To this must be attributed part of the blame for the increasing toll of deaths on U. S. high-ways. President Elsenhower says the Admini-stration would like to increase highway aid from \$575,800,000 to \$800,000,000.

stration would nike to inferease inginway and from \$\$75,800,000 to \$800,000,000.

Study groups which have investigated highway safety and the adequacy of America's highways, have reported expenditures in the millions, of, dollars would be necessary to lift the standard of public roads to what they should be. Since Federal highway aid is matched by local and state contributions, the extra \$225,000,000 in Federal dollars might well mean that another \$450,000,000,000,000,000 and the should be spent on U. S. highways.

The advantages of such an increase are many-sided. The operation would act as a pump-priming one, the nation would get better peacetime roads, and, therefore, a lover fatality rate on the highways, and the roads would also be valuable in time of war.

It is good to have, this age-old controversy subjected to the light of modern science. In fact, the three psychologists have described their experiments in a six-page report, which includes charts and the dimensions of saw-horses used, and so forth. A number of different sized nails and hammers were used in these experiments.

After these tests, involving sixty different combinations of hammers and nails, it is presumed that the scientific investigators went back to their round hole and square peg

The House Post Office and Civil Service Committee recently reported out a bill which would impose rate increases on mailers of letters and other first-class material, and also increases of mailers of second-class matter, such as newspapers and magazines.

One result of the proposed increases would be to make first-class letters four cents instead of three cents. The object of the postal increases is to eliminate or reduce, a post of-fice deficit which has been costing the nation about \$400,000,000 a year.

The bill approved by the House Committee would bring in an estimated \$240,585,000 annual increase in postal rates. Because, however, this is an election year, there is considerable doubt on Capitol Hill whether or not the Committee approved bill will get a majority vote in the House or, indeed whether it will be passed by Senate or House.

whether it will be passed by Senate or House.

As unpleasant as is the prospect of increased rates, especially for books, newspapers and first-class letters, it seems that the Post Office Department cannot go on running a deficit of \$400,000,000 a year. If defense costs were not so high, it might be that the deficit could be absorbed in the annual budget without too much trouble, but as long as the defense program is preventing a balanced budget and as long as the nation owes a 'debt which is costing the taxpayer over \$6,000,000,000 in interest alone every year, it is certainly advisable to make every effort to cut down such huge deficits as the Post Office deficit.

# Criswell Predicts

An Accurate Glimpse of the Future

Criswell will answer your questions if you will write him in care of the Torrance Herald, signing your full-name, and address. Only initials will be used in the answer which will appear in rotation as received and as space permits. There is no charge for this service, Write Criswell Practices today!

WHAT PEOPLE WILL DO:

WHAT PEOPLE WILL DO:

The most amazing invention of our century will soon be made known to a startled world by a German scientist now in Spain who will demonstrate a machine which can recapture the human voice and reproduce it exactly PLUS presenting a full image of the person speaking after a full twenty-four hours have clapsed through the use of magnetic electrons:

Princess Margaret will retire from public life after her coming marriage in September;

Big Margaret will retire from public life of the organization of the life of George Washington despite British influence to curtail the musical!

Mambe Elsenhower will have a great seffect on the millinery business the world over through her personal preference of the "little girl" type of hats!

Fanily deserters who dump their wives and children on public charity will face a great surprise when they are forcibly brought back and under law forced to provide or go to jail

#### WOMEN WHO WILL

MAKE NEWS

The Duchess of Windsor will permit her life to be filmed with no punches pulled, and it will truly make one of the top movies of 1955). Pola Negri, the winsome silent vamp of the flickers, who once had every man at her feet, will write of her life and loves in a very frank and open manner which will shock every man and woman in the nation!

... Hetty Green, the world's

rich est woman, will inspire many girls in the business world with her clear and simple valuation of men—which was "Simply don't trust them!"

Simply don't trust them!"

Clare Booth Luce, our present Acbassador to Italy, will scope the American public up to date on Italian affairs!

Rita Hayworth will find that her many troubles have been through faulty advice from the man nearest to her the present moment!

Ada Martin of the Martin Hollay Tours, will accept reservations for a flight to the moon in 1960, as this is how sure in 1960, as the single interval in 1960, as th day Tours, will accept reserva-tions for a flight to the moon in 1960, as this is how sure Science can be of coming in-terplanetary travel! . . .

### WATCH OUT FOR THIS FRAUD:

WATCH OUT FUE
THIS FRAUD:

A man, will knock on your
door and ask if you hold any
insurance polley, which he asks
to see, You allow him to examine the polley and he tells
you that he can give you a
much better buy for "less"
money and "more returns." He
then proceeds to have you sign
over your polley to him to
cash in and he in turn sells
you a very worthless polley,
very definitely inferior to the
one you owned. He leaves town
at once, and you find yourself
the victim of the insurance
"switch" an old and profitable game among confidence
men. If such a person calls on
you, take his card, and check
up with your present insurance firm or your friend in
the bank, So many pitiful letters have reached my desk that
I find this a growing major
fraud! If the man is insistent,
call the police!

Source. You will come through shis very soon.

Dear Criswell:

Does this man love me? Did he love me last spring and summer? Is he about to forget me or will he some back to me? Will we have a love affair such as I have dreamed of? Will we ever be married? What makes this man so nervous and restless? Has F. evertalked to W. on this subject? What makes this man so nervous and restless? Has F. evertalked to W. on this subject?

My dear J. L. H.:

I see results clearly in this case. You are to meet someone else very soon who will be a much better catch for you than this present man. You will keep the friendship of this man but you will guard yourself against any danger which may be around him. Man y times you have fell file crawling but you have fell me corner and dynam which would soon become a reality. You will make a very fortunate marriage and be the center of conversation among your friends. Your days of lone-liness are numbered for I know of your coming amazing good fortune. The month of March will prove highly pivotal in your affairs.

Dear Criswell:

We are an aged couple, 79

your affans.

Dear Criswell:

We are an aged couple, 79
and 77, and are both threatened with arthritis. Will we
be able to do our own work
this winter? Should we go to
our son's or daughter's home?

Our Son's or daughter's home?

My dear D. S. L.

I know that you will be able to do your work with the aid of someone else this winter.

You will then visit your son and also your daughter, There is much happiness awaiting you both.

you both.
Dear Criswell:
After 11 years of marriage
my husband has taken to excessive drinking. Is it my fault?
Mrs. D. B.
My dear Mrs. D. B.
My dear Mrs. D. B.
My dear Mrs. D. B.
i Your husband is trying to
run away from the reality of
his marriage for he is a disappointed man. It is not your
fault nor is it the fault of
his children. If everyone ran
off and drank each time they
were disappointed we would
not live in a sober world. I
know of your coming happiness with your husband, for
he will realize his responsibiltities. The month of Marchr will
prove most important.

# It's Your Country

Internationalist Purge
BATTLE LINES: A choosingup of sides—an alignment of
forces—is going on in Washington, and perhaps throughout the country. There can be
no doubt about the nature of
this align ment. On the one
hand, with the White Ho use
and its State Department leading, we have what appears to
be an internationalist movement which disregards the
whole purpose of constitutional government, On the other
hand we have those in our
Senate and House of Representatives who would preserve
our constitutional government
and protect our interests
against all of our, enemie's
whomsoever, which includes our
internationalists.

With regard to this, To m
Linder, Commissioner of Agriculture for the State of Georgia, has made some very pertinent remarks in his "Market Bulletin" of Feb. 17:
"There are two kinds of Communists in every country. There
are the big rich who want a
commune of the world... (the
Internationalists). And there
are the rakings and scrapings
of humanity who want a world
commune wherein the physically and "ffientally weak will be
the prey of those who are
physically, mentally (and politically) strong, the Communlists.

LAST STRONGHOLD: "Both
these groups are at work in

the prey of those who are physically, mentally (and politically) strong, the Communists.

LAST STRONGHOLD: "Both these groups are at work in Washington. Both groups realize that America is the last stronghold of the Christ'a a faith, Both realize that America is the last stronghold of the Christ'a a faith, Both realize that America is the last stronghold of constitutional government. Linder is bold enough to banner head his article, "A Communist is bold enough to banner head his article, "A Communist is A Communist in this country. Think this over. It implies that we have many, many Communists in this country who are completely ignorant of their communistic leanings, who are completely innewes the communist manifesto; but who have incorporated into their thinking the ideas, and ideals of world government.

New world government,

New world government per se is not an entity of itself; it is built up of many socialist-communist bits put together with a peculiar kind of political mortar, a very binding kind of mortar, all of the bits are oppressive and they all may be found as constituent parts of the Communist manifesto, Examined separately, they are not easily recognized by those who are unfamiliar with socialist-communist doctrine; but the mortar is of a strengthening nature for central government, and it should be easily recognized by every one.

\*\*POWERS NOT GRANTED: First we should realize that it

POWERS NOT GRANTED:
First, we should realize that it
was not the intention of our
founding fathers to write a
constitution containing within
it a provision for its own destruction, When Article VI of
our Constitution is very carefully read it is not too difficult to determine that it was
never intended to mean that

the treaty-making powers the executive department show be so great that its actic would be supreme and wot be the basis for determining

would be supreme and wor.

be the basis for determinidomestic law within these Uned States.

Such powers were traditic
ally a part of foreign goverments long before our Constution was written, and the
entanglements and wars
which those foreign goverments were continuous;
involved were a direct resiof such powers. Our Constittion was written to protect to
from these things; and the
views and actions of our fir
President made this clear, ihave the views and actions of
many of our presidents pricto the last three.

But during the last three an
aministrations more and mo
power has been sought by the
executive department, ansadly enough, it has acte
without regard to the intende
limitations placed upon it the
Ninth and Tenth Amen
ments with respect to Artice
VI. By interpretation or mil

MANION CASE: The grow ing necessity—in fact, the imminent necessity—to defend our lights as states and as individuals is now under emphysis. Triggering this emphasis was the recent purge (February 17) of Dr. Clarence Mai ion from his post as chairma of the Commission on Intergovernmental Relations; for regardless of what administer governmental Relations; for regardless of what administration spokesmen say, it has been made perfectly clear that he was releived of his post be cause of his support of the Brick of Amendment and a states' rights, and his oppost to the growth of government, domestically, through such huge enterprises as the Tennessee Valley Authority. The Manion purge has thu far been handled with it far been handled with it far been handled with it far been handled with lift gloves on the part of variou commentators and columnist who, though they were on the side of Dr. Manion, wished 6 place the blame for this purge on the President himself made the Aspointment, it is illogical to assume that one of his loss than the property of the audacity to ask Dr. Manion for his resignation without the full knowledge and approval of the appointing authority.

So far, Mr. Elsenhower is not facing the issue; "no comment" has been the only work coming from him on the Manion purge. But if Mr. Elsenhower does not approve of this radiosi and shoddy act, and wishes to remove some of thatint of left-swinging internationalism from his high office has a quick remedy a hand: he can fire Sherman dams forthwith and reinstate Dr. Manning with due apole gies.

# THEY SAY

Report, Illinois State Medical Society:
"Lusty laughter will make you live longer, Guffaws ventils
the lung spaces."

Dr. Arthur Bernstein, dentist:

"If you are tense and uneasy when you go to your dentist, the chances are so is your dentist."

### **Open Letter to Torrance** On World Day of Prayer

THE MAIL BOX

On World Day of Prayer

Dear Torrance Citizen.

Next Friday is World Day of Prayer—an opportunity and privilege for every citizen to pray and praise together. Plans are being made to include all ages and walks of life in this prayer program.

Those of you in business and industry who cannot worship during the noon hour at the Baptist Church on Friday will be asked to have devotions during your linch hour, as was done last year. Wor't you invite those near you to listen to God's word and to pray with you?

Housewires, won't you take time out to read a Bible story to the children playing in the back yard? To you who believe in God and His power in your life through prayer, tell it to others so they, too, may learn that the 'things of earth become strangely dim in the power of His glory and grace."

All those striving to make a living and a good name for themselves might well take into account Phillipians 2:16, "Holding forth the word of life; that I may rejoice in the day of Christ, that I have not run in vain, neither labored in vain."

Could this solve the problem of frustration in your life?

On World Day of Prayer let us pray as David did in Paalm 106:2. "Sing unto Him, sing psalms unto Him, and talk ye of all His wondrous works."

In His name, Mrs. Paul Wenske
