### A Message To The NEW CAR BUYER

Over 300 people have bought new BRITISH CARS from us during the last 15 months. Trade-ins have been 90% domestic makes and we included everything from a 1952 Cadillac to a 1950 Model "A" Ford Coupe. (Yes, the Ford still ran!) It's most unusual to get a BRITISH CAR owner to trade his car. Buyers do not change much, therefore, year to year depreciation is not as great as on domestic cars. The car runs more cleanly than any he has ever owned. He can get through traffic better. In the smaller car and he can park in spaces that the bigger cars must pass. In short - he saves time and money that makes good sense.

These 300 plus customers are now enjoying the thrill of owning a smart looking BRITISH CAR and realizing the operational costs of these previous cars. Why don't you do likewise? Come in and investigate how you can own a quality BRITISH CAR and start enjoying motoring as well as saving money!
