## Sacramento Report

By CHARLES CHAPEL

Assemblyman, 46th District California Legislature

### The Realtor's Creed

Many people have written to me, asking me to publish the Realtor's Creed in this column. They believe that it is an excellent example of a profession or business trying to police its own ranks, with its own code of ethics, instead of depending too much upon the various governmental bodies for regulation. Here it is:

The Golden Rule I will apply in everything I do  
In all I sell and all I buy to clients I'll be true  
With my competitor I'll be forever fair and square.  
My honor and integrity I'll guard with zealous care.  
Our code of ethics, I'll uphold in every act and deed.  
My word I'll keep as good as gold.  
This is my daily creed.

### Set to Music

The Realtor's Creed is sung to the tune of "O Susannah" by the Inglewood Board of Realtors and by some other boards in the southwest section of Los Angeles County, but most boards merely recite it in a conventional manner. If you have not heard it sung by a group of charming men and women, which realtors are, you have missed an enjoyable experience.

### Tobacco Legislation

Cigarette smoking shortens life. Dr. Charles S. Cameron, medical director of the American Cancer Society, told me this personally and he also released extensive findings on the subject to newspapers. Dr. Cameron quit smoking cigarettes three times in the last four years. His current attempt to quit is being "cashed off" by smoking cigars with me, hence no copyright applies to this paragraph. I grant it freely to speakers at PTA banquets.

Methodist church to which I belonged until about five years ago. (I am now a member of the Protestant Episcopal church).

I mention this matter of instruction in the public schools and also Sunday schools because I do believe that passing laws is not enough, that we must guide our children along the right paths when they are young. This must be done in the home by the parents, in the school, and by the church.

Referring back to my own smoking, I quit several times but quit for good in 1950, simply because I became convinced that smoking is detrimental to personal health, a fire hazard, and a nuisance to my friends who do not smoke. I did not use any "tapering off process." I merely quit. It is not difficult to quit a bad habit if you have a strong reason for doing so. This is the whole secret of breaking a habit. Simply convince yourself that you have more to gain by quitting than by continuing the habit.

We have laws in California which require the schools to teach the evils of alcohol, tobacco and narcotics. There are three pamphlets on these subjects, but they are not widely distributed and I am not convinced that they are widely read.

We have laws regarding the sale of tobacco to minors, but I am not convinced that they are strictly enforced. However, many minors when questioned by teachers about their obtaining cigarettes simply say: "I took them out of my mother's purse," or "I got them out of dad's coat when he was not looking."

There is nothing gained by enacting new laws regarding tobacco if they are not enforced better than existing laws. I invite everyone, especially school teachers and parents, to write to me at Post Office Box 777, Inglewood 1, and tell me what new laws you want, what changes in existing laws, or if you want things left as they are.

### A Woman's World

They are smart enough not to admit it, but women have a much longer and happier life than men. At birth, everyone asks: "How is the mother?"; at a marriage, everyone says: "What a beautiful bride!"; and at death, everyone asks: "How much did he leave the widow?" These comments are not original with me, hence no copyright applies to this paragraph. I grant it freely to speakers at PTA banquets.

### November

I personally know how difficult it is to quit smoking. I did not smoke at all until I was 29 years old, principally because of the lectures on tobacco given in my hygiene classes of the Iowa schools I attended, and also the instruction on tobacco given in the Sunday school classes of the

In response to many inquiries, I must explain that, although I received an overwhelming majority of all votes cast at the June election, I must run again in November, and will be sworn in for the beginning of my third two-year term in January, 1955.

**PORTLAND IN OIL!**

**JACOB JAY VANDERGRIFT**

STARTED THE FIRST BULK-OIL-HAULING BOAT BUSINESS, BETWEEN OIL CITY AND PITTSBURGH, IN 1882.

SOON AFTER THE DISCOVERY OF OIL IN VENANGO COUNTY, I RECEIVED AN OVERWHELMING MAJORITY OF ALL VOTES CAST AT THE JUNE ELECTION, I MUST RUN AGAIN IN NOVEMBER, AND WILL BE SWORN IN FOR THE BEGINNING OF MY THIRD TWO-YEAR TERM IN JANUARY, 1955.

EARLY OIL MEN WERE QUICK TO REALIZE THE ECONOMIES OF BULK TRANSPORTATION BY BOAT. VANDERGRIFT'S BOAT ELIMINATED THE COSTLY OPERATION OF RILLING BARRELS.

TANKERS MAKE UP ABOUT 45 PER CENT OF THE TOTAL TONNAGE OF THE AMERICAN MERCHANT MARINE. MORE THAN 55 PER CENT OF ALL WATER-BORNE CARGOES IN THE WORLD TRADE OF THE UNITED STATES IS MADE UP OF PETROLEUM AND PETROLEUM PRODUCTS.
