

Right Guide

Veterans administration has announced it will pay regular dividends next year on national service life insurance, which originated in World War II, and on U. S. government life insurance, which originated in World War I.

The NSLI dividend will amount to \$200,000,000 and will be payable to holders of approximately 5,000,000 participating term and permanent plan policies.

The USGLI dividend will amount to \$26,000,000 and will be payable to holders of approximately 380,000 permanent plan policies only.

In both the NSLI and USGLI payments, eligible policy holders will receive a dividend for each month the insurance is in a premium paying basis during the policy year ending 1955, with a single check covering the total payment due policy.

Payment will be made shortly after the anniversary date of each policy beginning in January and ending in December, 1955.

VA emphasized that the 1955 dividends will be payable only to eligible participating policies. They will not be payable to the non-participating post-Korea policies.
