

Hughes Paint Specializes in Holiday Ideas

The great do-it-yourself trend that has spread so widely among American home-makers the past few years, has now extended to the realm of Christmas gifts and holiday decoration.

Many men and women have found that even without previous experience it is simple and easy to create gifts that are not only blessed with their own individuality, but are every bit as attractive as those purchased in stores.

To this end, the Hughes Paint company can supply the home artisan-craftsman with new paints that take all effort out of painting, and make it as simple as pushing a button!

Enamel that is perfect for toys, furniture and many other types of gifts, comes in a push-button spray can, so that anyone who can push a button can paint well.

A large variety of beautiful colors is available, as well as black and white.

Another Hughes push-button paint specialty is Christmas Tree Snow. This "almost-like-real" snow, in white and red, allows the home decorator to spray his Christmas tree and to create snowy scenes on his holiday windows.

Again, just the touch of a button does the trick.
