Increase in Steel Prices Also Means Higher Cost-of-Living

The steel price increase will set in motion a series of cost-of-living boosts along a wide industrial front. Many manufacturers who fabricate products made of steel have been watching steel wage negotiations, knowing that whatever that industry does, they will have to do.

effort to assure an adequate future supply of trained personnel capable of continuing research and development programs essential to national defense. A leader in this national effort has been Howard Hughes, industrialist, aviator and motion picture producer. Just recently Howard Hughes Fellowship in Science and Engineering were awarded to four young men: Robert W. Hollworth, 24, of Detroit; Arthur F. Messier Jr., 25, of Garden City, N. Y.; Richard I. Tanaka, 26, of San Gabriel, Calif., and Norman J. Zabusky, 26, of Cambridge, Mass.

electric sorter for tickets, bills, checks, etc., is being brought out. No-down payment plan for buying dictating equipment should boost sales. . . . Bisquets in six flavors — for dogs — are being introduced as manufacturers and pet owners try harder to please their canine friends. . . . A vending machine manufacturer is trying to end the old free-matches practice of cigarette retailers and get them to put in a pay-for-your-matches machine.

Sheaffer expects the new pen to generate heavy demand for school use and to give the company product leadership in the low-priced pen field to match its leadership in the higher-priced field. The cartridge pen is filled without an ink bottle and in just a few seconds. The empty plastic ink cartridge is removed from the barrel, a refill cartridge is slipped in and the point section is screwed on. Smeared proof filling is assured because the cartridge is completely sealed until it is inserted in the pen and pierced by the tube that carries ink to the point.

PEN ULTIMATE — Youngster's handwriting lesson sheets no longer need look like finger painting, according to the makers of a new fountain pen claimed to take the mess out of small fry writing chores. The new Fineline cartridge pen satisfies parent-teacher demand for a writing instrument with the ballpoint's advantages—cleanliness, capacity and low price—plus a standard point that produces writing gradations and shadings, says the Sheaffer Pen Co.

HOT WEATHER BUSINESS—Record heat in many parts of the country may be causing the populace to suffer but it has been a boon to many industries that suffered acutely in July, 1954, due to unseasonably cool or rainy weather. The soft drink business, which suffered acutely a year ago, has snapped up smartly.

DADDY CAN FIX ANYTHING The tremendous faith of a child in his father! To the conscientious father it is frightening, indeed. And, to the conscientious mother, equally frightening is her child's trust in her. It takes something more than love and good intentions to live up to the expectations of our children. We need a strength and wisdom and tenderness that do not come automatically with the responsibility of parenthood. God provides, and the Church instills in our lives, the spiritual gifts which our parenthood requires. We were meant to cultivate these qualities, for with every challenge God offers us adequate resources. And our children will grow as we grow in the Christian faith, for the most obvious truth in the world is that a child wants to be like his Mother and Dad.

THE CHURCH OF ALL... ALL FOR THE CHURCH The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
