GIVE 'N SAVE

POLIO ISN'T LICKED YET

1955 ushered in the Salk vaccine . . . too late for many thousands and even more who may be stricken before the vaccine can be widely used. 68,000 patients still need March of Dimes' assistance. Money is needed for research and improvement of vaccines and surgical technique, training of polio scientists and teams of experts that will keep iron lung patients from becoming the forgotten people of tomorrow. NO, polio is not licked.

The values in our "Give 'n Save" Sale are available to you when accompanied by a contribution of any size. Give generously and save here!
