### Bank Achievement Award Search Gets Under Way

Search began this week in high schools throughout Southern California to find the 1700 senior students for recognition under Bank of America's 1956 Achievement Awards program. The top 180 students will receive cash awards totaling \$22,100, an increase of \$4500 over last year's cash awards. High school awards of \$100 each will go to eight students.

In addition to the cash, 575 students will win gold cups, and 1700 will receive certificates of achievement in the southland. Similar awards will be given in other phases of the bank's statewide program in central and northern California. The statewide cash awards total \$44,900 this year.

In Southern California, 226 public, private, and parochial schools—practically all of the high schools in the Southland—are participating.

The purpose of the annual program is to bring recognition and reward to outstanding seniors in scholarships, leadership, character, and promise of future service to society. Four general fields of study are covered: liberal arts, fine arts, vocational arts, and science and mathematics.

Announcement that the search for the students is now beginning was by Robert E. Kelly, who heads the program for Los Angeles City Schools system, of which he is associate superintendent, and Dr. C. Trillingham, superintendent of Los Angeles county schools and general chairman of the program for the rest of Southern California.

Cup Winners Compete  
 A committee of teachers in each school selects the certificate winners for that school, and later picks the school cup winners from the certificate winners. From the cup winners are chosen the school representatives to compete with winners in the zones to go on to the finals. Judges at both zone and final levels will be civic leaders not connected with the bank or the schools.

The whole schedule will be completed by next May, when the cash awards will be presented.
