If you're saving for a comfortable future...

## Where you save does make a difference

As more than 15,000,000 Americans already know, there are important advantages to putting your savings in insured Savings and Loan Associations...

Excellent returns from your money is one advantage. Modern, efficient, forward-looking service is another. And, of course, your money is safe because in insured Savings and Loan Associations your savings are protected by sound management and substantial reserves. They are insured up to \$10,000 by the FSLIC—an agency of the U. S. Government. No wonder Americans are now putting more of their savings account dollars into insured Savings and Loan Associations than anywhere else!
