

Girl Scout Advisors Set-Up School District Coordinators

By JO JENSEN
DA 4-7274

The Girl Scouts are on their toes and have arranged to have coordinators for each elementary school district in Torrance. Anyone who is interested in Girl Scouting or Brownies, either now or in the fall, should contact one of the following according to the school district in which you live: Crenshaw School, Sara Bramlett, 18301 Patroneia, DA 9-5763; El Nido School, Mary Hon, 4254 W. 182nd St., FR 2-7384; Perry School, Patricia Johnson, 431 W. 176th St., FR 9-1764; North

Torrance Elementary, Mrs. Paul Smith, 2608 W. 181st, DA 3-3224; Steele School, Mary Crockett, 4520 Darien, FR 9-6277; St. Catherine's, Pauline Reeves, 3304 W. 186th St., DA 4-0514; Evelyn Carr School, Frances Heyns, 16621 Ermanita, DA 9-4747.

A surprise baby shower was given for Mrs. Marion Rahmeyer by the Stitch and Chat Club at the home of Mrs. William Wilson last Tuesday evening. A beautifully decorated cake and ice cream were served. Baby booties, nut cups were the favors. Nancy Lee, 6

weeks old and the first girl after three boys, received strictly feminine type gifts.

Mrs. J. E. Allison has been appointed associate activities chairman of Volunteers for Children. All outside projects of the group will be channeled through her. An associate member does not work at the hospital but does participate in

other activities. There is room for more people in this work. If your group would like to take on a work project for the Volunteers you can get information from Mrs. Allison. The North Torrance group is planning to make tery cloth bedroom slippers. A meeting will be held at the home of Mrs. Allison, 17088 Glenburn Ave. at 1:30 p.m. tomorrow to get

(Political Advertisement) (Political Advertisement)

ASSEMBLY

going on the work. Materials are also available for stuffed toys.

David Bruce celebrated his 10th birthday Saturday with six of his friends. The boys went skating in Torrance first and returned to his home where cake and ice cream were enjoyed. His gifts of a baseball, bat, cap and glove were a big thrill.

The Cubs and the committee

of Pack 761-C were surprised when all 10 ten mothers of the pack appeared at the meeting Monday evening in their new uniforms. The mothers' club planned the surprise at its meeting the preceding Wednesday evening when they met at the home of Mrs. Perry Baker. The proceeds of the gypsy dessert baskets were used for the purchase.

George Beckham celebrated his birthday Saturday at Dis-

neyland with his family. That beautiful new bicycle helped make it a memorable day for George.

Nancy Lee Rahmeyer, 5 weeks old, was dedicated by her parents, Mr. and Mrs. Rahmeyer, at the First Baptist Church in Inglewood on Mother's Day. It

was her first outing and she conducted herself in a most blame manner.

Virginia Traynor made her first communion at St. Catherine's Labour on Mother's Day. The family and friends celebrated afterwards at her home with a dinner.

Pick A Shade, Any Shade, And Pelargonium Has Blooms to Fit

Pick a shade, almost any shade, and you'll find a Pelargonium blooming in that color! This popular perennial is easy to grow and can be used in all sorts of colorful plantings in your garden and in your home.

The most popular Pelargonium or Geranium is the common Garden Geranium, botanically known as Pelargonium hortorum, which has hundreds of named varieties in brilliant colors with many fancy leaves.

Another favorite is the Lady Washington Geranium (Pelargonium domesticum) which also has many varieties. A third favorite in California gardens, the Ivy Geranium (Pelargonium peltatum) has more than 50 named varieties.

With so many species and varieties to choose from the gardener will find many uses for the Geranium in his garden. In areas where color is wanted, the Garden Geranium and the Lady Washington Geranium are the answer, suggests the California Association of Nurserymen. They will grow well in beds, borders, window boxes, containers and even in tree and espalier form.

The range of color shades available in these two species is magnificent; for instance, there is Betina, with soft pastel pink petals, veined in red with red center blotches in the top petals. Grand Slam offers a rosy red with a slight salmon undertone on the lower petals, a red-blown blotch in the center and flushed salmon to the petal edges on the upper petals. Flame has blooms of orange-flushed gold.

ant fragrances. The leaves of some varieties are even used in cooking. Plant these Geraniums in your outdoor living area near your benches and chairs so that you can enjoy the pleasant lemon, peppermint, nutmeg and rose fragrances from the foliage.

In general, Geraniums prefer a sheltered, sunny garden home. If they are given too much shade they will become scraggly but in hot summer areas they should have some shade—under high-branched trees, for instance.

Soil Requirements
Soil requirements are not many for Geraniums. Be sure there is good drainage if you plant in heavy soils. Geraniums will grow in acid and slightly alkaline soils but if the alkaline condition increases the leaves will become yellow and the growth stunted. A good potting mixture for container grown Geraniums is two parts loam or non-sandy top soil, one part leaf mold or peat and one part sharp sand. Pot firmly, pressing down the soil.

Water your Geraniums well until they become established. Subsequent watering should provide just enough moisture to keep the soil moist below the surface. Fertilizers should be used in planting if the soil is poor. For established plants apply fertilizer once or twice during the spring and summer. Feed potted Geraniums once a month during the blooming season.

See your nurseryman now for several plants of the four Geraniums classes. You'll enjoy their easy culture and their colorful flowers and interesting foliage.

GP Official Receives Citation for Service

John O. Hills of the General Petroleum Corp. was awarded a citation for service at the annual American Petroleum Institute banquet last week for his service to API as chairman of the engineers' subcommittee on rotary equipment and as chairman of the joint subcommittee on rating of hoisting tools.

ALMOND RAISING
California is the only state in the U.S. so far to successfully raise almonds in commercial quantities.

GARDENER'S CHECKLIST

1. If you have ants in your garden, get rid of them. Ants spread a multitude of insect pests. Chlordane dust or spray will do the trick.
2. Don't delay planting gladiolus bulbs or dahlia tubers.
3. Plant that lawn now so it will be established before the hot weather.
4. Don't cut the green tops off bulbous plants such as daffodils, tulips and hyacinths. Allow the leaves to die naturally if you want the bulbs to bloom next year.
5. There is no need for gladiolus to be ruined by thrips. Your nurseryman can suggest an effective control.
