

Behind the Scenes

By REYNOLDS KNIGHT

The economists were at large last week. Someone said long ago that if all the economists in the world were laid end to end, they still wouldn't reach a conclusion. Samples: Dr. Arthur F. Burns, chairman of President Eisenhower's economic advisers, before the National Federation of Financial Analysts Societies: "The economy is perched on a very high plateau between threats of inflation on one hand and recession on the other."

George A. Renard, executive secretary of the National Association of Purchasing Agents, at their convention: "We have been doing a good job of creating a new depression. I don't say it will come tomorrow, but it will come."

Dr. Leo Wolman, Columbia economics professor: "It seems to me the optimists are currently misreading the bullish signs."

Dr. Heinz E. Luedicke, editor of New York's Journal of Commerce: "If this year's full development into a third postwar recession, chances are that such a recession will develop next year."

Martin Gainsburg, economist for the National Industrial Board: "Gradual correction of last year's excesses is building a base for further growth, with a definite upturn in the second half of this year."

DISAPPEARING TIN—Tin constitutes less than one percent of most tin cans and now American Can Company has developed a process to eliminate 98 per cent of that one per cent, from some 10 billion cans a year. The new technique, known as margin plating, consists of tin-plating only a narrow margin of the edges of the steel plate that forms the soldered sides of cans. The rest of the can will be enameled.

For some types of cans, like those for pet foods, only 85/100 of an ounce of tin will be needed to make 1,000 cans, says Dr. Roger H. Lueck, Canco's vice-president in charge of research and development.

Significance of this advance would escape the average person, unless he knew that no tin is mined in the United States, and that 75 per cent of world supply comes from Communist-menaced Southeast Asia.

Coffee and pet food cans are being produced on a limited basis by the new process, and Canco plans to install equipment for margin-plating in coffee, pet food and beer cans, margin-plating would save \$2,600,000 pounds of tin a year.

THINGS TO COME—Japan sends a hot-lunch kit with the food actually kept hot by a fluid chemical. A signal to show a night fisherman that he has a bite has an attachment to keep the current he's fishing in from setting off a new liquid starch is so concentrated it's diluted eight-to-one for use. Now there's a shure-sure weighing only three pounds, whose makers suggest you can now teach your wife carpentry and retire to the shade.

SOULS AND SUITS—Max Rubin, president of Strong-Wear Company of Baltimore, one of the nation's ten largest producers of men's clothing, is a man who thinks there is nothing incompatible between business and poetry. In fact, he says, when other business men find you have a soul as well as merchandise, you can carry on your mundane transactions on a higher, more satisfactory plane.

Max Rubin has published two books of verse, and is working hard on a third. He writes when the spirit moves him, often taking a little time from the affairs of his busy day. Honesty, democracy and brotherhood are favorite

Recruit Will Finish Marine Training Soon

Myerin J. Vander Galien, son of Mr. and Mrs. Jake Vander Galien of 22226 Shadycroft, is scheduled to complete recruit training soon at the Marine Corps Recruit Depot, San Diego.

The 10-week course includes instruction in all basic military subjects and the firing of all basic infantry weapons.

NTCIA Plans Dance

Members of the North Torrance Civic Improvement Assn. are planning a dance at a Gardens club June 22. Mrs. Bonnie Nobbe is in charge of the affair.

themes. This, perhaps, is only natural for a self-made man who left Russia in 1913 because the Czarist police took such a dim view of the Bill of Rights.

Max's company was founded in the very trough of the depression, 1933, with a capital of \$1,000. Aliming, in Max's words, "To build my reputation with truth that recognizes suppression/ To keep my name unblemished/ And hold in high esteem, the business has grown until in 1955 Strong-Wear sold among other things 150,000 summer suits; 100,000 all-year suits, and 15,000 top coats.

COST- SAVING DEVICE—Gas heat is going into seven of ten new homes wherever the fuel is available. As a result, builders are increasingly interested in special vents specifically engineered for use with gas-burning appliances and equipment. Known as Type B gas vents, these devices eliminate the need for a masonry chimney, reduce construction costs and increase operating efficiency.

BITS O' BUSINESS—Import trade for March, first reported as a record missed by a few millions. At \$1,099 million, it's best since March, 1951. Corn planting plans in the Midwest are up to \$1.5 million acres. Department 5 to retail sales in the May 19 week were up 5 per cent from the 1955 level. Business failures rose to 279 in the week ended May 17, from 217 the week before, says Dun & Bradstreet.

Public Notice

TORRANCE HERALD-653
NOTICE OF HEARING OF PETITION FOR WRIT OF HABEAS CORPUS

Pursuant to Statute and to the resolution of the City Council of the City of Torrance, California, the following notice is hereby given that the City Council will hold a public hearing on the 17th day of June, 1956, at 10:00 o'clock a.m., in the City of Torrance, California, at the City Clerk's Office, 1619 Gramercy, Torrance, California, to hear and determine upon the following petition:

The undersigned, MONTREY STREET AND CERTAIN OTHER STREETS in the City of Torrance, within the Harbor City Division of the City of Torrance, California, and the undersigned, HIGHLANDS SEWER DISTRICT, by their duly authorized representatives, a sanitary sewer system and appurtenant works, including the construction of a sewer line, 24" diameter, from the 17th day of April, 1956, by the City Council of the City of Torrance, California, which Resolution of Intention is hereby referred to for further particulars.

And thereafter on the 17th day of June, 1956, the City Council did award the Contract for said work to the lowest responsible bidder, to-wit:

O'Shaughnessy Construction Co. at the unit price named in the bid, to-wit:

1. 6" Sid. V.C.P. with cement joints, including wyes in place.....at \$2.50 per lin. ft.
