

Great-grandmother is the "Ten Pin" Queen, Takes 18 Bowling Trophies in Seven Years

By MILDRED BUNT

A collection of 18 bowling trophies in seven years is the amazing accomplishment of Mrs. Flo Lewis, 80-year-old great-grandmother who with her husband, George, resides at 2525 Sierra St. She will readily tell you that she is an average bowler and goes in for the fun of it rather than honor. What's more, she means every word of it, too. "You know, it's funny to me if the team starts losing and I begin to laugh and the others laugh, too. Then all of a sudden we are all bowling in good form and winning."

When asked how method she uses in bowling which has made her team winner of numerous cups, she simply says it is not how hard you throw the ball but where you put it that counts. Being relaxed is another factor she recommends and follows.

The local bowling championship recently added another cup to her growing collection in winning the 23rd women trophy in Redondo. Fourteen of 18 trophies are for league championships.

She has a 156 average and the recent one came to a perfect score was 285. What apparently helps her to win time after time, is her consistency of always playing a good game. Then too, she seldom becomes tired while bowling.

Her husband, George, talked her into bowling when she first started. They started a bowling alley in Los Angeles but it

looked further convincing on his part, to get her to pick up a bowling ball and throw it down the alley. To her surprise she had little trouble in not only keeping the ball on the alley but showed promise of clearing the alley of pins in the 10 pins. It didn't take much trying after that and she soon found herself as a member of bowling teams. Although her husband does not go in for bowling, he highly approves of his wife being the bowler of the family. What's more he is her most ardent fan, not only in her bowling prowess but as a wife and mother to his four children who are now grown-up.

Mrs. Lewis began to bowl when she was 50. She is now captain of the majority of the teams with whom she bowls. The first year she bowled, she won a trophy and has been winning them at the rate of two or three a year. Not long ago a woman of 70 told her that she thought she was too old to bowl. To which Mrs. Lewis replied, "the only time you're old is when you think you are."

The Lewises have lived in Torrance for the past four years and reside in one of those lovely homes in Torrance Gardens.

YOU ARE JUST AS OLD AS YOU FEEL... the bit of philosophy handed out by Mrs. Flo Lewis, 80-year-old great-grandmother pictured here with her first teacher and husband, George Lewis, amid her 18 bowling trophies. The local grandmother, with an exceptional aim for life, defies the "old age poppycock" and at least once a week takes a jaunt to the bowling alley, joins her team, and displays her mastery of the alley.

Dilworth Is Speaker at GOP Meeting

An approximate crowd of 100 interested people heard Senator Nelson S. Dilworth at the second annual picnic meeting of Republicans Unlimited at El Centro Park.

"Attacking and smearing our servicemen who fought so valiantly to defend our country is comparable to the attack being made on Senate investigating committees," stated Senator Dilworth. "Only by power of subpoena are the committees able to summon and question those who are suspected of trying to overthrow our government by force and violence. The civil war because the Communist conspirators are determined to take over the United States without firing a single shot in order to have our factories and industry in good working order and to make slaves of the people. This pattern has followed in each country with the exception of Poland, which was taken by the marching Red army."

The senator from Riverside County further stated, "Kruschev, in spite of his platitudes towards the U.S. is the same ruthless murderer who, under Stalin's directives, was responsible for the senseless killings of millions of freedom-loving people! Those remaining alive are silent slaves behind the Iron Curtain."

"The so-called Russian farmers, who were so recently entertained throughout our country, had not one farmer in the group, but actually each man was an officer of the dreaded MVD, direct from the Kremlin. The American public dares not be taken in by these people who would destroy the last stronghold of freedom — the United States of America."
