## Fish Killed At Big Bear

Sport fishing at Big Bear Lake, in the San Bernardino Mountains, will be completely rejuvenated starting in late October or early November when the Department of Fish and Game will remove all fish from the lake by chemical treatment and restock the water with rainbow trout and a balanced population of warm water fishes.

lake's fish food and growing room. Results are expected to be better fishing for bigger trout and warm water species as the result of increased growth and survival. As soon as the lake loses its toxicity Big Bear will be restocked with approximately 80,000 catchable-size rainbow trout.

## Herald Writer Claims Record

Donna Barkdull, the HERALD'S Rod and Gun Editor, moved into the newsmaking field last week end when she notched a women's world's record by hooking up a 309 pound black sea bass off Anacapa Island.

Donna's catch practically outweighed her by a three to one margin, the fishing female weighs in at an even 109 pounds.

The record breaker was hauled in after a two-hour battle, and just 12 hours after she landed a 246 pounder, also on the 45 pound test strand.

Donna, a charter member of the Torrance Rod and Gun Club, confessed to being slightly tuckered out after her battle with the briny bass.

## Their Savings Keep Us Growing...

General Telephone Company of California is owned by more than 7,500 people and institutions representing many different walks of life

Since World War II our company has grown at an almost unbelievable rate. To provide new telephones and improved service required an increase in plant and equipment of more than 500%.

In 27 short years our investment has grown from \$10,000,000 to \$245,000,000. Yet the big job of meeting the demands of California's growing population still lies ahead.

During the next 30 months, \$210,000,000 has been programmed for this purpose. Nearly all of this money must be raised through the sale of our stocks and bonds.

It is our responsibility to make certain that those who purchase these securities, as well as our present shareholders, are paid a reasonable return for the use of their money.

Adequate telephone rates must be maintained at all times to fulfill this responsibility.
