EDITORIALS New Torrance Court

With dignity becoming the occasion, Judge Donald Armstrong has been installed as the first judge of the Torrance branch of the South Bay Municipal Court. The court lacks only the dignity of adequate and appropriate physical surroundings to mark another milestone in the phenomenal growth of this astounding city. But, surroundings have nothing to do with the quality distinct discussion of the avail administered court. Some

of justice dispensed by a well administered court. Some of the most profound decisions have been rendered in crude surroundings, decisions that have altered or have set the patterns for our basic liberties. It has become a fact that a good judge is a good judge always, whether he sits on a hand-hewn bench or in a magnificent room of walnut and marble.

Through his long legal career, in his life in Torrance as a community leader and as the head of a fine American family, Judge Armstrong seems to possess the ideal quali-ties for his new career. There are, of course, other men in the area who would have made good judges; but, we think, Governor Goodwin Knight acted wisely in his selection.

Torrance long has needed its own court. The savings in distance and inconvenience will be great and, of course the largest city in the South Bay area certainly is entitled

to its own court. Our city officials seem to have given every cooperation to the county in an effort to provide a temporary home for the new court. It is of paramount importance that Judg Armstrong has his own quarters as soon as possible so that the people of Torrance will be properly served.

A Growing Battle

City and industrial leaders of the southwest county area are raising serious questions about the county's policy of furnishing services to incorporated cities on a contract basis—services which are normally considered to be city responsibilities.

Called the "Lakewood Plan" because that city was a ploneer in the field of operating a municipality without providing its own police, fire, and other city services, the county policy is getting increasing notice from representa-

tives of cities and taxpaying groups which feel they are subsidizing their neighbors. Latest to join the battle for a strict accounting of the costs involved is the Torrance Chamber of Commerce, which has called a meeting of city and Chamber officials

of the area to a meeting next Tuesday to discuss the matter. Several city officials of the area have maintained that the cost to the county for providing the essential services is far greater than the contract price of the arrangement.

Is ar greater than the contract price of the arrangement. Many of these same officials accuse the county of enter-ing these contracts to perpetuate its own justification for existence—saying the need for county government is de-creasing annually as the cities grow and carve new, areas out of county territory. The paternalistic policy of provid-ing city services is designed to keep the county government alive, the critics say. They may be right.

"Round and Round"

Don't mistake mere activity for accomplishment.

A booklet from General Motors Research tells the story of processionary caterpillars, so called because they move through the trees in a procession, one leading and the others following—each with his eyes half closed and head snugly fitted against the rear extremity of the caterpillar in the front.

Jean-Henri Fabre, a French naturalist, enticed a gro of processionary caterpillars to the rim of a flower pot. He succeeded in getting the first one connected up with the

last one, thus forming a complete circle which started out in a procession which had neither beginning ör end, The caterpillars never caught on. Through sheer force of habit the living, creeping circle kept moving around the size of the rest. rim of the pot.

What were they following? Instinct, habit, custom,

what do you call it when men mistake activity for accomplishment, when they mean well, but go nowhere?

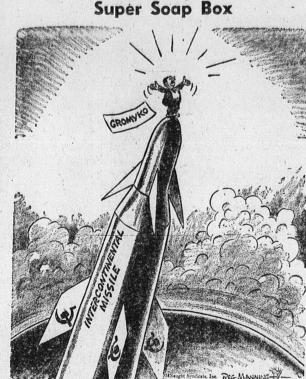

Opinions of Others

Federal spending has devalued the dollar so that the buying power of whatever the people may have left after taxes is cut in half.

Maybe Uncle Sam knows best. Maybe it's all right for the government to be master of the people, instead of their servant. It is, if we believe in socialism. Some of us don't, --Corpus Christi (Tex.) News.

LAW IN ACTION

Conspiracy Defined

When we think of conspira-tors we call up a picture of evil-faced, beard ed men around a candlelit table, plot-ting the conquest of the world. But for the law there but in Callfornia conspiracy are other kinds of conspira-tors and conspiracy. Early in the 14th century,

English courts used a writ of conspiracy to decide whether the accused had maliciously agreed with another falsely to indict a third party for a felony. In later common law courts

"conspiracy" meant two or more persons combining for some unlawful purpose, or for a lawful purpose by un-

for a lawful purpose by un-lawful means. In California today a per-son cannot be accused of just "conspiracy." Ho must be ac-cused of conspiracy to do one of the offenses set out in the statutes. There are no com-mon law erimes in California; they must all be a plot, for example, to com mit any crime — robbery, falsely to have another accused of any crime, eriminally to cheat and defraud anyone, etc. All conspirators must mean to commit the act, and know The Israeli attack on the Gaza strip last October, and the defeat of the Egyptian forces on the Sinai peninsula,

YOUR PROBLEMS by Ann Landers

Two TVs a Bar to Happiness

Dear Ann: I am a woman 47, my three children are grown and I'm dying of bore-

My husband has \$12,000 in

dom. My hasband has \$12,000 in cash buried under the garage. He doesn't believe in banks. He won't buy a car because he says they are too expen-sive to run. He loves TV and has two sets tured to different chan-nels every night. He walks from the living room to the bedroom so he can keep his eye on both stations. The ouse drives me crazy but he usens to enjoy it. I can't invite friends over because he won't pull himself away from TV long enough to say "hello", much less somed an evening visiting. The worst part of our mar-finge is 'his tightness with money. I can't pry a quarter out of him. He buys the gro-ceries every Saturday and pays all the bills. During the war gut worked and loved hav-ung my own money but he mode me quit because of in-come taxes. What shall I do? __Fed Up.

-Fed Up. Where were you when your husband was developing all these edd habits? He didn't get this way overnight. Go back to work and enloy a little independence. If he complains about income tax-es tune him out, it's better than having NO income to pay tax's on. If your husband wants to vegetate between two TV sets, the's wir to him. But you are entitled to a nor-mal Me. Particloate in some outside activities and find friands before you flip your lid in that squtred coge. rail, to bring an end to then plight. I asked bluntly of Israel's position today on the ques-tion of these Arab refugees. In the past year I heard and read statements of Israeli of-ficials visiting the U.S. which expressed conflicting oplinions and policies in re-gard to these unfortunate and neglected Arab masses.
