circum stances home care makes no sense whatever.

Not ALL older folks are a problem. Some are hale, sight and I must care for him like an infant. He belongs in a nursing home where he can get proper attention. But my husband says 'My father will die in the home of his loved ones. We'll send him to a nursing home over my dead body.' Well send him to a nursing home over my dead body.' In such cases I strongly advise the wife to get moral support from her clergyman. Often HE can make the husband see the light. No woman should be a 24-hour slave year after year to save her husband from needless guilt feelings.

In some cases the older person has lost contact with reality and is unable to identify his surroundings or the people

who are caring for him at great personal sacrifice. Under these circumstances home care makes no sense whatever.

Not ALL older folks are a hale, hearty, cheerful, helpful and a source of genuine pleasure to those around them. If they went off to a home for the aged they would be sorely missed. But I don't hear about these people very often—bet cause THIS is a problem column.
