Holiday Tea Given for Mothers

A delightful Mother and Daughter tea of members of Girl Scout Troop 508 was held recently at the home of Mrs. Mary Norman, 23810 Huber Ave., Torrance.

Dear Ann Landers: We have a family problem and need advice. Our mother is 80 years of age. She underwent surgery recently and the doctors found an unexpected cancerous condition. Mother is now at home with me.

Three months have passed since the operation and mother is losing weight steadily and is in pain much of the time. She does not know of her true condition. Do you feel we should tell her? I say to let well enough alone. The rest of the family says she should be told. We will abide by your decision.

Jazz Band at Marineland

Rosy McHargue, one of the leading exponents of Chicagostyle jazz, and his Dixieland band have returned to the Marineland Restaurant in Palos Verdes to play a return engagement in the dining establishment's "Porpoise Room," where they scored with the patrons last spring.

The group featuring the "sweetest music this side of Dixie" is headed by McHargue, a celebrated clarinetist, whose rhythmic hot-noters assure foot-tapping enjoyment.

Dixieland music has been highly popular at Marineland Restaurant ever since the the melodic rockets zoomed off at the re-birth of jazz. Consequently, owner-host George M. Foster has brought the captivating band back to the "Porpoise Room" for a 10-week stand.

Bright Outlook
For 1959

It is hoped that lower prices for meat, vegetables and fruit may reduce the 1959 retail food prices slightly below those of 1958.

We are all aware that retail food prices during the past year were record high... The Federal inspection mark fresh and processed citrus fruits and, in the early part of the year, fresh vegetables. Outlays for food were high despite lower average income per person during the first half of the year.

But during the coming year consumer incomes probably will be at record highs... up considerably from 1958. It is expected that the proportion of income spent for food will be a little lower... due large ly to the fact that incomes are expected to increase more than food expenditures.
