# Class in Radio

gins a radio experience for teenagers today.

teenagers today.

The program, which will be divided into eight-week series, is designed to give experience and background in radio to as many interested boys and girls as possible. The group will meet from 7 to 8:30 p.m. in the foyer of the Torrance Municipal Plunge each Thursday evening beginning tonight.

The program will be supervised by Ed Novak of the Recreation Department. Novak

reation Department. Novak had extensive experience in radio drama and stage produc-tions in New York.

Novak plans to work with the group on scripts to better understand what is involved in radio drama. Such things as sound effects and the use of the microphone will be cov-ered before actual acting be-

gins.

The group will record on they finally tape the script they finally choose. The department plans to use the final product on the parks and playgrounds for the benefit of the children. For those who participate in this program, new scripts will be started as soon as they have evaluated the ones just com-

evaluated the ones just completed.

Novak stated one of the many experiences from this type of program is to give the boys and girls another mode of expression. Miss Marilyn Jensen, assistant director of the from the food.

The culinary art of the South Seas is mastered by the recreation department, stated that this is only the beginning of this type of activity in the department. If the response and interest of the group is such, a much more intensive program will be held in the future, she said.
