IMPORTED CAR NEWS DIGEST

from SMALL CARS MAGAZINE:

SMALL CAR TIRES

United States Rubber Co. began production last December of tires for foreign cars imported into this country, Walter F. Brown, general sales manager, U.S. Tires division, announces.

The tubeless tires, ranging from 13" to 16" in diameter, will fit 85% of the cars makes being imported. These makes account for 95% of the foreign car replacement market. Production will be at the company's tire plants.

from SPORTS CAR ILLUSTRATED:

The (Simca) Aronde is built for stamina, and proof that it has this is its collection of 38 FIA international records, the longest of them for 100,000 kilometers or 62,138 miles at an average of 64.7 mph. The qualities of the car that impressed Sports Cars Illustrated's test staff even more, though, are its ride and its roadholding and handling qualities.

from SMALL CARS MAGAZINE:

\$22 MILLION ORDER

Since the return to the U.S. of Hillman and Sunbeam dealers from their 10-day visit to England, and the arrival in New York of the first of the new 1958 model cars, orders to the value of \$22,468,000.00 have been placed with Rootes Motors, Inc., according to Mr. John Panks, the company's U.S. Managing Director.
