Space Age Equipment Shownat School's Science Fair

WHAT A WELL-DRESSED MAN WILL WEAR . . . Taking a look at the space suits of the future are Gerry Forrest and Richard Miller, who tooled up small space toys of a plane and a moon rocket. The space suit, displayed by the Air Force, may become in-creasingly common soon. (Herald Photo)

MISSILE MODELS . . . They aren't real, but these missile models at the Science Fair definitely are interesting, Gordon Duncan and Robert Bee reported. The display was one of many in the missile field presented for the students and public. (Herald Photo)

SATELLITE IN ORBIT . . . One of the top interest getters at North High's Science Day held Monday was this satellite which was suspended from the ceiling of the gymnasium and placed "in orbit." There, Jim Baker, Richard Peters, and Yvonne Knight take a look at the satellite, loaned by the Hoffman Co. (Herald Photo)

Torrance High Plans Science Fair Tomorrow

A Science fair, with nearly 300 exhibits from local schools. will be held this Friday at Torrance High School boys' gymnasium.

The exhibits, all conceived and built by students in Torrance elementary and secondary schools, will be shown to the public between 7 and 9:30 p.m.

Patterned after similar science fairs held throughout the United States, the displays will be visited by students from Homeowners and residents n the area south of Harbor elementary and high schools. General Hospital have formed Parents and the public will be group to be known as the

welcome in the evening. Each participating student will receive a certificate of participation. R i b b on awards Southwest Keystone Civic Im-provement Assn., it was re-ported here this week. Meeting at the 222rd St. school Saturday evening, more than 75 residents of the area heard Robert Johnson, mainte-nance engineer for the county of adults. Already selected as Judging will be by a group of adults. Already selected as judges are David Thayer, Bob

road department, speak on drainage and roads, one of the major problems of the area. Sulliva n. and Dick Dodge, Shell Chemical Corp., and Gro-ver C. Hatcher, E. L. Consi-dine, and Paul M. Wilkins, General Petroleum Corp. Fiat, 222nd St. and Jay St. are private streets, according to Hank Watton, who was named president of the group at its meeting Saturday.

anxiously await Saturday when the doors open at McMaster Park for the annual pancake breakfast, 7:30 a.m. to noon, served by Cubs and parents of Pack 761-C. Cubs displaying the sign are Alfred Vincent, Mickey Denis, Steven Sibley, Bobby Pope, Stanley Sibley and Bobby Menard. Money raised will be used to finance Pack activities throughout the year.

THE HELIUM TRICK . . . G. K. Hargett of the Moody Institute of Science helps Dick Africano to fill his lungs with pure helium in one of the Science demonstrations, as Judy Fazio looks on. Breathing helium raises the pitch of the voice several octaves. Hargett also demonstrated many other scientific devices. (Herald Photo)

THE NEW LOOK IN PHONES . . . Taking a look at "phono-vision" in which the image of the person talking on the phone appears on a screen are Joan Hall and Janet Moon. Part of the telephone company exhibit also contained demonstrations of solar batteries. (Herald Photo)

NHS Science Fair Draws Large Crowd

Nearly 2500 spectators in addition to high school and elementary students showed up to view the scientific exhibits in North High School's second annual Science Fair last Monday.

Displays, movies, and demonstrations were put on by 50 leading industries from this area. Students attended the program throughout the day, with the public attending at night.

A top interest getter was a satellite, presented by the Hoffman Co., which revolved on the ceiling of the gymnasium. Also drawing top attention were various demonstrations of the Moody Institute of Science, including a show of the effect of helium on the human voice and how music can be played with a beam of light.

The displays included both industrial and student work, with missiles, space suits, helicopters, and other

SHOPPERS' AID . . . Ronnie Hale, who has been named "Miss Torrance Furniture" for the event, will be putting pennies in meters to give customers more time to check the unique new window merchandising display featured at Torrance Furniture Co. in downtown Torrance. The firm's new giant revolving display permits showing of three complete furniture arrangements and is being halled as a space-saver.
