Seven Men **Give Views On System**

Seven of the nine school board candidates spoke out at 'Town Hall" meeting in Walteria. Tuesday night, in tones ranging from guarded remarks on minor points in administra-tion of Torrance schools to open criticism of the adminis tration and the board of education.

Missing from the panel were the two incumbents, C. A. Mewborn and Clinton Cooke. It was reported at the meeting that both called before the meeting and said they could not attend. Speaking out sharply against the

the administration were Wil-liam C. Boswell and Dr. Don Cortum, both candidates for election two years ago. "I haven't climbed on the 'Sputnik' bandwagon," Boswell told the crowd of more than

100 persons. Only One Change

"Anyone who cares to can look up my campaign platform of last election. It has changed in only one aspect: I am no longer naive enough to believe that the self-perpetuating that the self-perpetuating board and the opinionated administration are going to be unseated by guarded criticism.'

Later in response to a que tion from the floor, Boswell said he did not believe any important changes could be made in academic emphasis under the present administration.

His stand was backed strongly by Dr. Cortum, who stated the responsibility of the board of education was to direct and control the curriculm "instead of turning it over to an educa tionist."
