Your PROBLEMS

1

Dear Ann: I'm a grown woman who is ashamed to be writing for advice, but I am desperate.

My husband is 44 years of age and has never given me any trouble whatsoever. He's home every night and when we go out, it's always to-gether. For the past few months he's been talking in months he's been taiking in his 'sleep and it's driving me mad. He speaks in distinct tones and full sentences. The names "Mary, Alma, Doris and Grace" come up often and the things he says indicate that he honey these grids pratty wall knows these girls pretty well. His references to a "Miss Dawes" doesn't bother me as they are quite business-like.

I haven't had a decent night's sleep in weeks and I'm beginning to look haggard. Please tell me if dreams have meaning. A friend told me that people dream of things they do during the daytime. If this is true I can't figure out how he is able to leave the how he is able to leave the office so frequently. Please advise.--V.R.

Be happy that your husband speaks in distinct tones and in full sentences. I have heard from women whose husbands mumble and it drives them crazy. Dreams have meaning, but
