Every component part of the body, engine, and chassis is completely cut away—revealing every construction detail. All moving parts are in continuous motion showing every precision movement. As an additional treat, earphones have been spotted around this display to provide an exciting experience in "two-dimensional" sound, featuring songs by Pat Boone.

This is just one of several compelling attractions waiting for you at Featurama. Make sure you see them all. Bring the whole family. Featurama's fun and it's free!

LEVEL AIR RIDE

RAREST FUEL INJECTION
Everybody's talking about fuel injection. Now you can see it in operation. Use a special revolving 200-hp. engine fuel injection system. Three times in every rotation it stops, to provide for closer examination of every intricate detail.

WORKMASTER V8 POWER TRAIN
