

## Campus Registration Office Open to Obtain Permits

To enable new part time students of El Cerrito College to obtain permits to register during convenient hours, the campus registration office will be open from 9 a. m. until 12 noon Saturday, July 26, Merl F. Sloan, director of student personnel, announced today.

"Only those part time students who were not enrolled or who did not complete work in the spring semester will be allowed to pick up permits Saturday morning," the director said. This will be the first time that arrangements have been made for early enrollment procedures for new part-time students.

"There will be no parking problem Saturday morning. Mr. Sloan noted in special arrangements, "as no classes will be in session at that time."

Part time students who completed the spring semester will also be enabled to participate in a priority registration program for the first time this year. These students will be enabled to register without permit on August 6 from 1 to 3 p. m. and from 5 to 7 p. m.

Full time students enrolled last spring have already received priority registration permits if they appeared for counseling appointments during the past semester.

New full time students started making appointments for counseling during the past week. They may continue to do so in the counseling office.

Both the counseling and registration offices are located in the Administration Building, 16007 S. Crenshaw Blvd.

### Illinois Picnic Set

"The Legend of Illinois" will be the subject of Lin Price who will speak at the 51st annual summer picnic of the Illinois State Society of Long Beach Saturday.

The affair will be held at Brady Park, Yang Beach.

### GARDENERS CHECKLIST

1. Summer flowering shrubs, abelia grandiflora, the common myrtle, oleanders and others are well worth viewing at your nursery.
2. Be sure to soak your garden thoroughly including trees before you take off on your vacation. Give specific instructions to a neighbor or whoever is being left in charge.
3. Summer shade trees are inviting. Silver maples, sycamores, locusts and others are available in containers at your nursery. They won't give shade this year but you have to start sometime.
4. Container grown plants can be set out at any time in California. The secret is to keep them well watered until they become established.
5. Cut back delphiniums when the flowers fade and in many areas this will encourage a new crop. Use snail bait around these and on other garden plants.

## Your Park Department

Pruning and caring for parkway trees is interesting and fascinating. It is wonderful to know that as many people are interested. Many of them come out to watch the pruning process. Some boys are for pruning these the way we do, others ask many questions, so we take this opportunity to explain a little about the parkway trees.

The first thing we must consider is the width of the parkway, and the trees are selected with this in mind. Then we have to consider what will grow good in adobe and what will grow good in sand. Many people seem somewhat impatient about the growth of their trees. It takes some trees from six months to a year to get over the shock of transplanting and re-establishing themselves in their new location, and then some of them are slow growers.

People should know that the

latter the growth the shorter the life span. There are many other factors that retard a tree's growth, such as the breaking out of the crown by children, striking the young trunk with the lawn mower, and the wind.

Another consideration in the selection of a tree is its height. Where the homes are only one story dwellings, the trees should only be about 15 to 20 feet tall; then they will enhance the beauty of the community.

The young trees should be kept staked and tied, and if a stake breaks it should be replaced. A rail should be made in the park Department so that the tree may be staked again as promptly as possible.

Torrance Park Department

### HIGHWAY BRIDGES

There are about 230,000 highway bridges in the U.S.

## Five From Torrance In Art Festival

Five Torrance artists are the Municipal Art Department, among those exhibiting their work at the Festival is anticipated to attract more than 20,000 visitors for the 2-day program held over the weekend starting tomorrow in Barnhart park.

They are: Marian Cummings, 3437 22nd St.; Vicki Feldon, 815 Foothill Ave.; Nina B. Bohn, 694 Madrid; Myrtle McCutchen, 17031 Erma; and Gladys Whittington, 1240 Hickory.

Kenneth Ross, director of the Municipal Art Department, said the Festival is anticipated to attract more than 20,000 visitors for the 2-day program held over the weekend starting tomorrow in Barnhart park.

The festival will feature a children's art center, continuous ceramic mosaic, painting and drawing demonstrations, and music by the Municipal Chorus. Musical entertainment will be provided by the Los Angeles Trio, and by the Los Angeles Metropolitan Band in a special concert Sunday, from 5 to 7 p. m.
