BEFORE YOU BUY ANY NEW HOME . . .
Make the 'KNOCK ON THE WALL' TEST!

Thump the wall with your knuckle to feel if they are thick and strong, or thin and hollow. Reassure yourself the house is well built. Genuine plaster walls and ceilings are fireproof, cool in summer - warm in winter. They keep out noise. And because they keep a new house looking new longer than any other material they always add to the value of a new home when offered for resale. To be safe.
