

Coast Nursery School Plans Open House

Coast Nursery School, cooperative serving the Hollywood Riviera-Seaside Rancho area of Torrance, will launch its fourth year Sunday at an open house for prospective members at the nursery school play-yard at South Bay Baptist Church, 4366 Sharynne Lane, from 2 to 4 p.m., according to an announcement made by Mrs. John Schultz vice president.

ON DISPLAY will be the creative work materials, play equipment, playhouses, and other facilities used in the pre-school development program. Mrs. Michael Kokos, the school's professionally trained director, will be on hand to describe and explain the group's activities.

Member parents, who assist Mrs. Kokos in supervising and observing the play and development of the youngsters, will also participate in the open house program. President for the coming year is Mrs. Guiseppe Werth, 637 Via Los Miradores, Hollywood Riviera.

COAST NURSERY School is conducted under the Adult Education Division of Torrance Unified School District. The children attend four mornings weekly, with each mother participating one morning. At other meetings the parents have guest speakers, films, and discussions on the problems and progress of the pre-school child.

Information on openings in the non-profit group may be obtained from Mrs. Clarence Cohen, membership chairman, FR 5-5637. Interested parties are invited to attend the open house.

New Service By Phone Co. Saves Time

A new 24-hour installation service on local outside extension lines has been announced by H. C. Vaupel, manager of General Telephone's Redondo exchange area. "Outside extension line service," Vaupel explained, "refers to the connection made between a subscriber—usually business or professional—and a telephone answering service company."

Telephone answering services are independent firms who make a business out of answering the telephone. Previously, installation of an extension line between an answering service firm and a subscriber took as many as six days to complete. Now, with the inauguration of 24-hour service, answering services can accommodate clients who may wish immediate or temporary service.

Urge Drivers To Watch Out For Children

"Watch out for children who may not be watching out for you," the California Highway Patrol reminded motorists today, urging that all drivers review traffic laws relating to the safety of school children.

"Youngsters throughout the state are returning to school after a carefree summer," stated Commissioner B. H. Caldwell. "With them will be many children starting off to school for the first time."

"The little ones are unpredictable and may dash across the street or from behind a parked car at any time," he concluded. "Each driver must exercise extreme caution and obey all traffic laws to avoid striking an unsuspecting child who may not be watching traffic."

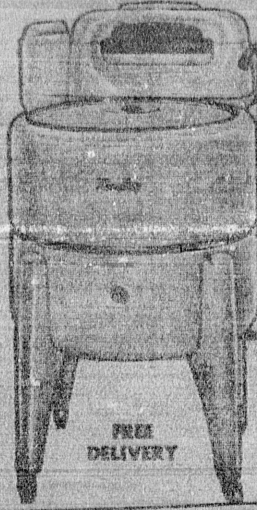

"A concentration of bicycle riders will also be found near schools," he added, "making special alertness on the part of every motorist absolutely necessary."

Caldwell also cautioned parents to review the rules for safe walking and safe bicycle riding with their children and urged that mother or dad help plan the safest route to school for those starting for the first time.
