West 190th St. 3 blocks West of Hawthorne Blvd.

LUNCH TIME . . . It's not an apple for the teacher, but it's lunch time at South High School where the luncheon facilities are completely automatic this year. Students can get a complete luncheon from automatic vending machines, with a fare including hot dogs, soup, various hot foods, fruit, milk, and ice cream. Here Denny Gibson stands by while Barbara Phinney gets an apple to top off their lunch. Work on the cafeteria for the school started this week.

### Membership In Moose On Loose For Ninety Days

The rules governing the submission of applications for membership in the Loyal Order of Moose fraternity and the Torrance Moose lodge, allowing applicants to ask for consideration without the recommendation of a regular member, were announced this week by James A. Evans, secretary of the Torrance lodge. "The revision in existing regulations," said Evans, "is, however, only temporary in nature. During the next 90 days our lodge will accept applications, for consideration, made by any male member of this community. After the three-month period," concluded the lodge secretary, "applications will be accepted only from and with the recommendation of a regular member of the order." Governor James McCune and the other officers of the Torrance lodge approved the temporary change in lodge by-laws at the request of the membership committee. Preliminary interviews will be conducted by Evans at the lodge hall, 1744 W. Carson St., between 7:30 and 8 p.m. every Monday evening. Applications for membership will be available at the time.

### American Savings to Open South Bay Center Location

Plans to open a new office in the vicinity of the South Bay Shopping Center approximately April 1 were revealed today by American Savings and Loan Assn. Managing Officer Edward L. Johnson explained that the California State Savings and Loan Commissioner recently approved the American Savings application for a license to operate a branch office in the North Redondo Beach area, and the work of developing plans for the new office has already begun. Located at Hawthorne Blvd. and 174th St. in North Redondo Beach, the South Bay Center includes 57 acres of land, parking space for 5800 cars, and more than 50 retail units in addition to facilities for community and civic affairs. During the first anniversary celebration of the South Bay Center in August, more than 125,000 people attended various events held over a three-day period. American Savings currently is operating nine other regional offices, and reports that its savings totals have increased more during the first nine months of 1958 than during any other nine-month period in its 63-year history. Total assets of the association now amount to more than \$150 million.

### University Accredits Two Local Schools

Accreditation of Torrance High School and North High School by the University of California in its September 1958 Bulletin was announced today. Graduates of the accredited schools are eligible for admission to the university without examination. Students graduating from schools listed in the annual bulletin as having an accredited college preparatory program are admitted to the university on the basis of their records or satisfactory completion of prescribed courses with an average grade of "B" or better. In order to apply for accreditation by the university, a school must have a graduating class that includes students who qualify for admission that particular year. South High School will have its first graduating class in June 1960. Application for accreditation of South High School will be made to the board of admissions of the university at that time.

### AREA COMPARED

Belgium is a little larger in area than Maryland.
