

ON HIS FEET... Eight-year-old Darrow Davidson of Torrance is on his feet again, although they are still separated by a rigid, 36-inch steel bar. The device, fitted by the Orthopaedic Hospital, will have Darrow back on two feet in time to fulfill his desire to be a Boy Scout, hospital officials say. Darrow is one of the 1959 children of the Harbor area who were aided by the hospital this year under the auspices of the Community Chest.

AFTER JOLTING FALL

Eight-Year-Old Will Walk Again With Aid from Chest

Cheerful and lively as a cricket, Darrow Davidson, 8 years old, gets around all day at play and sleeps at night with his hips tightly bound to be immovable, and his feet constantly stretched 36 inches apart by a rigid steel brace. Darrow makes no complaint but wades cheerfully for the day when the steel will be removed and he will walk again "good as new."

He was a normal happy, active little boy until just about a year ago when a swing gave way and he had a jolting fall. As parents noticed that he limped after this, as his limp became more pronounced they took him to their physician.

X-RAYS DISCLOSED a condition only recently recognized and called leg-calve-perthes disease from the names of the doctors who first diagnosed this very unusual bone disease occurring usually in children under 12 years. The bones in the hip joints were softening and wearing against each other in the socket. Without proper treatment, permanent injury is done and the child is sentenced to life as a crippled invalid.

Such a diagnosis was a crushing blow to the Davidsons. It happened almost a year ago at the peak of the recession in southern California when the father was without work.

THAT THIS can be a story with a happy ending is because Darrow is one of the 1958 children in Harbor Area who have

been served this year at Orthopaedic or Children's Hospital, two of the 197 Red Feather agencies which receive support from the Community Chest. Orthopaedic Hospital is one of the few places in the United States with experience in coping with this comparatively rare disease.

Placed first in a restricting cast from shoulder to heels so that bones would no longer rub against each other, he was allowed to move only his head and arms.

NINE WEEKS in this cast was a long time for an active 7-year-old boy. But Darrow had been counting birthday days until he could become a Boy Scout, and the promise that first the cast and later the brace would make him well enough for the normal activities of scouting made it all endurable.

Today, with the steel stretchers between his feet night and day, he is able to move awkwardly and with a rocking motion, but with amazing rapidity. Also he is back to school, doing well in the third grade at the Harlan Shoemaker School in San Pedro, where with other physically handicapped children he is sheltered from possible accidents.

THE DAVIDSONS were new in California. They came here a little more than four years ago from Iowa. They lived at first in the 15300 block of South Raymond in Gardena and then moved further south

DiMiceli Praises GOP Military Foresight

"American strength has kept America's peace through Republican foresight," stated Leonard Di Miceli, congressional candidate from the 17th district, at a meeting of the El Redondo chapter, Daughters of the American Revolution, which took place at the home of Mrs. Harriet Bartlett, Palms Verdes Estates, last Sunday.

Parents Invited To PTA Meeting

Principal Myrl C. Ruppel, of Cade Mayor Elementary School, has invited all interested parents to a pre-organizational PTA meeting on Oct. 13 at 7:30 in the cafeteria. Child care will be provided and refreshments will be served.

Mind Creativity To Be Discussed

Rev. Ted Romersa will speak on "Creativity of Mind" at the Sunday evening service of the Fellowship Study Group of Religious Science Sunday at 7:30 p.m. in the YWCA and Plaza Del Amo. The regular midweek services in the YWCA.
