PARIS—We Americans have the best facilities in the world for being informed and yet few of us seem to know just what NATO (North Atlantic Treaty Organization) and SHAPE (Supreme Headquarters Allied Powers Europe) are all about.

Actually they are dynamic, functioning organizations, that have a direct bearing on the peace and security of every American home, although they are located in France.

NATO is engaged in safe-

guarding the freedom, common heritage and civilization of member countries founded on the principles of democracy, individuality and the rule of law.

THE 15 MEMBERS countries of NATO, organized by the North Atlantic Treaty of April 4, 1949, are Belgium, Canada, Denmark, France, West Germany, Greece, Iceland, Italy, Luxembourg, The Netherlands, Norway, Portugal, Turkey, the United Kingdom, and the United States. All cooperate toward common

goals while still retaining inherent sovereignty. Internal disputes are handled through a due process of law within the organization.

With the world in a state of concern over the peace, SHAPE, the military activity of NATO, takes on ever-increasing importance. It is the military might of the member countries under a supreme commander with ground, sea and air forces deployed in a manner to first of all act as a war deterrent and secondly to defend NATO territory if war is thrust on it.

It is significant that not one foot of NATO territory has been lost to the Russians since the organization was formed.

FIRST SUPREME commander for the NATO was General Eisenhower. Presently the commander is Gen. Lauris Norstad, USAF, with Gen. C. V. R. Schuyler, U.S. Army, as chief of staff.

We were briefed by Gen. Schuyler and the things we learned on and off the record gave us an entirely new conception of SHAPE and confi-

dence that while we Americans sleep there are competent and powerful forces at work deterring aggressors and ready in a minute to strike retaliatory blows that doubtless have and will continue to keep a semblance of peace in the world.

SHAPE HEADQUARTERS are located outside of Paris in an entirely new community where some 3000 military leaders and their families from all of the member countries live in harmony. In living together, one German off-

icer told me they have come to have a new understanding of their fellow allies and have made lasting friendships that have completely removed national prejudices. All this German told me, are dedicated to defense of a free world and are ready to make the supreme sacrifice for a really worth-while cause.

Europeans, we learned, were no more chagrined by the first sputnik than they were pleased with the performance of our submarine Nautilus. They have faith in SHAPE and the Strategic Air-

Shriners Plan Ladies' Night

Shriners of the South Bay area are looking forward to one of their biggest social affairs of the year Saturday when they stage their annual ladies' night dinner dance, according to George Shaw, president of El Toya Shrine Club.

Command of the United States, knowing that it can strike Russia from bases located throughout 360 degrees of the compass. This, they claim, is the only reason why the Soviets haven't started a war long before now.

The dinner dance will be held at the Hacienda Hotel, 301 S. Western Ave., San Pedro, for the Shriners, their wives and guests. Social hour is scheduled for 8:30 to 7:30 p.m., followed by dinner, entertainment and dancing.

Reservations may be made by calling Secretary Ed Aiker, 2207 Torrance Blvd.

FIRST SUGAR CANE
The first sugar cane grown in what is now the United States was produced in Louisiana in 1771.
