PLAYS KEY ROLE IN LUNAR PROBE... Nelson A. Pixley Jr. (left), 4829 Macafee Rd., of the Space Technology Laboratories, Division of Ramo-Wooldrige Corp., who played a prominent role in the recent U. S. Air Force lunar probe project at Cape Canaveral, is pictured here in the control room of Blockhouse 17 at Cape Canaveral launching site of the Air Force Missile Test Center. The various instruments which indicate the readiness of the missile to launch are checked by Pixley and Mark Bolton (right), also of Torrance.

Nelson Pixley Plays Key Role In Lunar Probe

A key role in this week's U. S. Air Force lunar probe project was played by Nelson S. Pixley Jr., of Torrance. Pixley, who is a member of the technical staff at the Atlantic Missile Range, is affiliated with Space Technology Laboratories, Division of the Ramo-Wooldrige Corp.

Pixley attended high school in Pasadena. A graduate of Iowa State College, with a Bachelor of Science degree in engineering, Pixley completed graduate courses at UCLA. During World War II, Pixley served in the U.S. Navy from 1943 to 1946.

Responsibilities at Cape Canaveral for Pixley include able control during the launch, missile test, and electrical design arming and firing sequence system.

The son of Mr. and Mrs. N. S. Pixley of Pasadena, Pixley, his wife, Lorraine, and their two children, Lisa and Martin, claim 4829 Macafee Rd., Torrance, as their home.

Plan Halloween Festivities At Alondra Park

Alondra Park will be the setting of a Halloween party to be sponsored by the county recreation department Friday, Oct. 31. Activities for youngsters will be featured from 4 p.m. to 7:45 p.m. Adult square dancing will take place from 8 p.m. to 11 p.m.

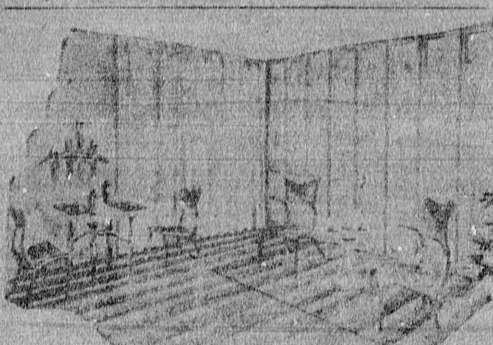

Highlighting the children's festivities will be a costume parade, talent show, pie eating contest, bobbing for apples, and game booths.

Preceding the costume parade, scheduled for 5 p.m., bobbing for apples and pie-eating contests will be staged. Among the booths which will open at 4 o'clock are swing ball, shuffleboard, guessing hoots, clown toss, and fish pond. Booth tickets will be priced at a penny apiece.

Contests will continue following the parade, with a doughnut contest slated for 8:15 p.m., to be followed by a baby bottle race at 8:45 p.m.

Talent show contestants will vie for loving cups at 7 p.m. Categories in the talent show have been broken down into four groups: 4½ years of age and under, ages seven through nine, ages 10 through 12, and the above 13 age bracket.

Nobel Spees will be caller for the adult square dancing.

SPECIAL DISPLAY

The American Institute of Decorators will have a special display at the ninth annual Decorators' Show, produced by Robert L. Boyle, at the Pan Pacific Auditorium Oct. 16-26. Designed by Pat Sailors, A.I.D., the exhibit will consist of two rooms on either side of the A.I.D. theater entrance. Both rooms are in the same furniture arrangement but in different color accent. The informal room is done in olive with walnut furniture while the formal room is in gold with bronze furniture. The furniture from Clark & Burchfield was made in Italy and designed by Dan Johnson.

Special Exhibits Scheduled At Decorator Show Today

Today, Oct. 16, has been set as AID-Day at the Decorators' Show currently running at the Pan Pacific Auditorium. It was announced by producer Robert L. Boyle.

AID stands for American Institute of Decorators and members of the Southern California District Chapter, who are sponsoring the show along with the Antique Dealers of Southern California, will play hosts to the thousands of visitors expected to visit the home furnishings fair on Sunday from 1 to 11 p.m.

The experts of interior design will live up to the word their initials spell and aid persons seeking advice on home decor problems. Pat Sailors, A.I.D., designed the Decorators' special exhibit which consists of two rooms on either side of the AID theater.

Both displays are in the same furniture arrangement but in different color accent. The informal room is in olive with walnut furniture while the formal room is in gold with bronze furniture. These two settings illustrate the dark color forecast for 1959: burnt orange, olive and gold.
