\$650,000 a day!

Nonprofit schools SAVE California taxpayers \$650,000 a day in public school taxes every day in the school year! Don't pay the price in higher public school taxes that threaten EVERY TAXPAYER if Proposition 16 should pass!

Vote NO on 16

HERE ARE THE FACTS: Nonprofit schools in California — Protestant, Catholic, Jewish and nonsectarian — educate 340,000 students a year. To educate those students in the public schools would cost \$118,000,000 a year.

There are 180 days in the school year. Divide that figure into the \$118,000,000 state saving, and the result is a tax saving of \$650,000 a day for California taxpayers.

Vote NO on 16

Proposition No. 16 would force some marginal nonprofit schools to close. By imposing a DOUBLE TAX on the parents of their students, and raising tuition costs, it also would force a substantial percentage of nonprofit school students to transfer to public schools.

Overcrowded, under-staffed public schools would have to absorb the load, AND THAT MEANS HIGHER PUBLIC SCHOOL TAXES.
