Billy Graham Film Slated For Showing

Evangelistic Billy Graham's latest motion picture, "The Heart Is a Rebel," will be presented as a forthcoming significant event in the religious life of our city. The new feature-length color production stars Ethel Waters, Georgia Lee, and John Milford and is scheduled to be shown at the First Baptist Church of El Nido, located at 4538 W. 182nd St., this evening at 7:30 p.m.

The film provides a front row perspective of the Graham team in the Crusade setting of Madison Square Garden. The dynamic preaching of the evangelist is augmented by the singing of George Beverly Shea and the music of a 1500-voice Crusade Choir under the direction of Cliff Barrows.

The doors of the First Baptist Church will be open at 7:00 and the showing will begin promptly at 7:30. All seats are on a first come basis, with no admission charge.

Praise is the best auxiliary to prayer. He who most bears in mind what has been done for him by God will be most emboldened to ask for fresh gifts from above.—Henry Melville.

YOUTH GROUPS SUPPORT Church Church Month Named As

Launching Torrance-Goes-to-Church month this weekend will be young people representing the youth groups of 31 churches who will walk the streets of this city in a door-to-door endeavor to reach every family residing in Torrance in an effort to invite each of them to visit his house of worship.

While at each home the young ambassador of religious good-will will leave a flier which will include the name and location of each of the churches in Torrance.

Sermon Deals With Evil

The Lesson-Sermon to be read in Christian Science churches Sunday expounds the theme that sin and all evil must be destroyed and that there is no relief gained from the penalties of sin and all evil until they are wiped out. The subject is "Everlasting Punishment."

From the Bible it is descriptive reference is taken from the Lamentations of Jeremiah: "Wherefore doth a living man complain, a man for the punishment of his sins? Let us search and try our ways, and turn again to the Lord" (3:29, 40).

WHO'S REALLY BEHIND PROP. 18?

**NOT Leaders of Major Religious Faiths... Protestant, Jewish, Catholic...
NOT Leaders of California Republican or Democratic Parties...
NOT Leaders of Our Community's Business and Civic Life...**

Who, Then, Is REALLY Behind Prop. 18—And What Are They Up To?

Proposition 18—masquerading under phony, misleading labels like "voluntary unionism" and "right-to-work"—is backed by a few extremely powerful, wealthy, behind-the-scenes special interests. Their only objective is to divide labor and management into warring camps—and to benefit from the strikes and strife and depressed wages which have accompanied "right-to-work" laws in every unfortunate state where they have been enacted.

Multi-Million Dollar Nationwide Scheme

Their campaign in California is part of a multi-million dollar nationwide scheme—a bold attempt to impose "right-to-work-for-less-and-less" laws state by state... after every major national leader, including President Eisenhower, condemned and opposed their earlier efforts to put over a federal "right-to-work" scheme!

"Right-to-Work" Schemes Rejected Time and Again by Voters

Among the powerful special-interest groups backing Proposition 18 are the same "late-entrants" who specialized every effort to get employer against employee, to set class against class... the same groups who opposed social security, paid vacations, minimum wage laws, and other benefits to protect employees. They have backed repeated efforts to put over "right-to-work" schemes in California. The last time it appeared on the ballot, the people defeated it by more than half a million votes! And 50 other states have rejected or rejected such laws!

"RIGHT-TO-WORK" SCHEMES RESULT IN LOWER WAGES, REDUCED LIVING STANDARDS

The average per capita income for all states with "right-to-work" laws is far below the California average—37% below! Yet, the vast-of-being in these unfortunate states is within 2% of California!

Promoters Claim Prop. 18 will create "VOLUNTARY UNIONISM"

HERE ARE THE FACTS:
Far from creating "voluntary unionism," Proposition 18 would work in precisely the opposite direction. It would mean government intervention in the present free, voluntary system of collective bargaining between employers and employees. Instead of the voluntary way, where employees vote as to whether or not they want a union shop or an open shop (and in 87% of such elections, they have voted for the union shop!) Proposition 18 would actually outlaw such union shop agreements—regardless of the wishes of employers and employees. Such complete governmental control is hardly "voluntary unionism"! The only voluntary aspect is the right of employees voluntarily to work for less and less.

Promoters Claim Prop. 18 will "CLEAN-UP CORRUPTION"

HERE ARE THE FACTS:
Proposition 18 actually would breed and encourage—not discourage—corruption in labor-management relations. It contains not one single provision for dealing with corruption. Whenever honest, responsible working agreements between employers and employees are destroyed... as they would be by Proposition 18—it is the greedy, extremist elements in management and labor (and only these elements)—who benefit. Secretary of Labor Mitchell, himself, recently stated that "right-to-work" laws tend, if anything, to increase corruption, strikes and labor-management disputes!

Promoters Claim Scheme "Hasn't Hurt" Wages in "Right-to-Work" States

HERE ARE THE FACTS:
Promoters of Proposition 18 show misleading statistics which indicate that wages have increased in "right-to-work" states. They have—but in spite of, not because of, "right-to-work." They have increased because recent Federal Minimum Wage Laws forced employers to raise wages up to the federal minimum! Even so, wages in free states have increased far more than in "right-to-work" states (see chart).

What Has Happened in "Right-to-Work" States Could Happen in California!

Lower wages, reduced living standards, increased violence and labor-management disputes... that's the view to "right-to-work" states. That's why every enlightened employer, every responsible leader and group in the community fear Proposition 18. They fear that the irresponsible, self-seeking forces behind the scheme may succeed in misleading and outwitting the public into enacting this dangerous legislation—thereby causing the very industrial peace and harmony that have given California the highest per-capita income in the nation.
