**Proposition 18 Labeled as "Right to Work for Less" Scheme**

Business, civic, religious and political leaders of our community are united in condemning Proposition 18 as a fraud, masquerading under dishonest and misleading slogans. It is backed by a few extremely powerful, wealthy, behind-the-scenes special interests. Their only objective is to divide labor and management into warring camps . . . and to benefit from the strikes and strife and depressed wages which have accompanied "right-to-work" laws in every unfortunate state where they have been enacted.

**Proposition 18 Would Breed Labor Management Corruption**

Despite the misleading claims of its promoters, Proposition 18 contains not one single provision for dealing with labor-management corruption. It would have just the opposite effect. Whenever honest responsible working agreements between employers and employees are destroyed — as they would be by Proposition 18 — it is only the greedy, corrupt and extremist elements in management and labor who benefit! Secretary of Labor Mitchell himself recently stated that "right-to-work" laws tend, if anything, to increase corruption, strikes and labor management disputes.
