ELEGANCE without ostentation

This, we believe, is the reason why people who seek the style are swinging to Ford as never before.

By now the new 1959 car models are only a few weeks old. Yet already one fact is evident and irrefutable - in almost every community across America, the leaders in style and taste are enthusiastically swinging to the new Ford - even more than ever before.

Two reasons most frequently given are car design and outstanding value.

In the past year, you have seen a number of rather blatant styling innovations. Some - such as the "Cock Lock" - were overnight sensations that soon lost favor. Others have "grown" in acceptance with the American public.

This discrimination, we believe, again reflects the inherent good judgment of the majority of Americans who prefer good taste to ostentation.

And it was with this in mind that the 1959 Ford was designed and created - from its Flying V Deck to its new 171 in. I-beam enclosed roof to its Fashion-Star Grille.

In every thoroughbred line and elegant detail, it has the stamp of Thunderbolt. No outlandish angles, no built-out bumpers, no contrived effects. Not an awkward line from any angle.

Now step behind the wheel or sit in the back seat. All around you means spread around you. Yet you don't know that "bought in a bathtub" feeling... or a need to keep your arm and knees handy. And you'll be glad to know those slender pillars supporting the airy roof have been triple-tested for roll-over.

Again in 1959, Ford respects your pocketbook... from problems to performance to trade-in.

The new Ford Custom 300s are by far the largest, lowest, biggest, highest low-price Fords ever. Both standard 150 Ford engines, six and Thunderbolt V-8, run fast on regular gas... saving you up to one dollar a tankful. You change oil only every 4,000 miles instead of every 1,000 - another big saving. A new, aluminum-alloy muffler usually lasts twice as long as the old type and every 1959 Ford has one. A new, low-price Fortomatic Transmission will make stick shifting a thing of the past. You'll never have to wear Ford's exclusive "Diamond Laser" Gush, the most durable ever developed.

And most of the options you want are lower priced in Ford than in many competitive makes. So -

You might say we're proud of our new '59 Fords. Proud, too, that they were awarded a Gold Medal by the French Committee of Judges at the Brussels World's Fair. Trust your own good taste. The elegance that is Ford's '59 will continue to appeal to discerning car owners for years to come. We invite you now to see and drive the most exciting Ford in history.
