Dick Glendon To Lecture At Science Church

The healing power of scientific prayer will be the subject of a lecture on Christian Science to be given here Friday, Nov. 23 by Richard L. Glendon of Los Angeles.

Open to the public without charge, the lecture will be sponsored by the members of First Church of Christ, Scientist. Mr. Glendon will speak in the church at 8 p.m. His subject will be "Christian Science: The Healing Comforter."

Now on nationwide tour as a member of The Christian Science Board of Lectureship, Mr. Glendon was a moderator recently on several television programs in the series "How Christian Science Heals."

A native of Denver, Colo., he became interested in Christian Science as a boy. He withdrew from business in 1934 to devote his full time to the public practice of Christian Science healing. During World War II, he was active as a Christian Science Wartime Minister.

Girl Saves 450 Pennies For Campaign

Volunteer workers checking and counting contributions at Community Chest campaign headquarters the other day were surprised at the weight of an envelope from north Torrance, which, when opened, poured out 450 pennies as well as the normal accumulation of bills and pledges.

Enclosed also was a note from Carolyn Scary, the section chairman making the collection. The pennies, she said, were the gift of Sharon Horn, of 4508 Carlson St., who had saved them one at a time, since last year's campaign.

Sharon is seven years old and a victim of cerebral palsy. Sharon is seven years old and a victim of cerebral palsy. Almost two of her short years have been spent in the Chest supported Children's Hospital and Sharon and her mother are both deeply grateful for the help they have been given. Saving her pennies each day is Sharon's daily gesture of remembering.
