Water Replenishment Backers Get Briefing

Four Torrance representatives: Mervin M. Schwab, John Melville, Jack B. Brooks, and Walter E. Ford, attended a meeting of community chairmen of Division Two, in the drive to secure petitions for the formation of the Central and West Basin Water Replenishment District in Manhattan Beach Monday for a briefing by Division Chairman W. C. Faragher, president of the West Basin Municipal Water District.

Included in the proposed replenishment district are the cities which dot the coast from Long Beach to Playa del Rey. Other boundaries are the Orange County line on the West and Puente Hills, Whittier Narrows, Montebello Hills, Santa Barbara Ave., and Baldwin Hills on the North.

PURPOSE OF THE district, according to Carl Possie of Manhattan Beach, manager of the West Basin Water Association, who spoke at the meeting, is to restore the 700,000 acre feet accumulated overdraft on the underground supply caused by the population and industrial growth being into balance the withdrawal and replacement of nature's supply halt the intrusion of sea water as a result of low underground levels, and provide a safe reserve in the event of disaster such as earthquake, bombing or critical radio-active fall-out.

Among those who also attended were: George D. Kendall, chairman, and Mrs. Grace Haggett, co-chairman, of Palos Verdes Estates; O. E. Roberts, chairman, and Julius L. Nelson, co-chairman, of Rolling Hills Estates; and E. H. Reynolds, chairman of Rolling Hills City.
