The Art Corner

By VICKI FELDON

Parents, usually mothers, are tramping through the toy departments of the stores filled with holiday stocks, looking for "just the right thing for Junior." Junior will receive many things, probably a new piece of sporting equipment, books, additions to his electric trains, clothing, games, records.

Girls will receive the feminine counterpart of Junior's gifts. If these parents are thoughtful they will include some sort of art activity kit or among their purchases. They recognize the necessity for encouraging creative activity for their children. There is enough sitting and watching television, organized sport activity, all sorts of group doings, pressure for conforming in many ways. Every child, they feel, needs the satisfaction of a creative outlet, whether or not they have a special talent or skill or interest.

SO THEY buy paint-by-number kits, do-it-yourself mosaic sets, patterned leather-craft boxes, wood-burning kits. The list is endless. All complete with directions and diagrams that deprive the individual of the wonderful satisfaction of . . .

retires from the first beginnings of an idea all the way through to completion.

What one child or adult may make by themselves, may be made by the drawing may be incorrect, but it is their own expression of their own individual feelings about things. The kits are one of my pet hates. The same stores that carry these kits, also sell jars of paint, brushes, modeling clay, pads of paper, finger paints, whittling tools. The list of creative materials is just as endless, but how much better the results.

Mill Explains Chamber to Nor-Air Toastmaster Club

Fred W. Mill, President of the Torrance Chamber of Commerce, was guest speaker at the regular meeting of the Nor-Air Toastmasters Club No. 1583, at the regular Thursday meeting on Nov. 23rd. This Toastmasters Club meets every Thursday at 12:15 p. m. at the Western Country Club. Many of the members of this particular club live either in Torrance or in the Torrance area.

As part of the educational program, Mill spoke on "The Torrance Chamber of Commerce in Action." He explained the functions of the Chamber of Commerce.

By way of comment in his talk, he described what is taking place in the Torrance area. He commented on the new hospitals, the new shopping centers, and the phenomenal growth of Torrance in general.

Nor-Air Toastmasters Club No. 1228 is a Northrup sponsored recreational club, unique in that it is comprised of night shift members in the area. Possibly this particular club is one of the most active.

As another unique record, last year Len Hauster, president of the club, won top honors in the area competition between six Toastmasters Clubs. He showed his versatility by winning both as the best serious speaker and the best humorous speaker.

BESSIE BISHOP paints very charming things in the Grandma Moses vein. Her paintings are colorful and lively and generally appeal to everyone.

The local exhibition calendar contains the name of Keith Crown, one of the South Bay's busiest painters. Water color and pastel techniques using strong designs and brilliant color are what he usually does, always well done in a very personal manner.
