Women Over Torrance

Solar Realm Draws Space-Age Women

By BOB WILTON

Women fliers at Torrance Municipal Airport are a cross-section of women in general, coming from the four compass points of the South Bay area and ranging from beginners, with a few hours of instruction time, to veterans with years of flying behind them.

Virjan East, 1330 W. 228th St., is one of the newest to take up flying at TAP and has logged 19 hours of instruction time. She is a dispatcher for a variety tank truck service. She and her husband are both learning to fly and plan to own an airplane when they have saved.

Shirley Ginter, 3247 W. 132nd St., Hawthorne, is employed by Hughes Aircraft and has 23 hours of instruction. She has always wanted to learn to fly. . . . "Whenever I looked up at a plane and how that I am learning I can't get away from it." Since taking up flying she has met many new people with the same interests.

Maxine Macaulay, 97 - 21st St., Hermosa Beach, is the mother of two children and is working on her private license. She expects to solo in two weeks.

Eve Johnson, 434 - 8th St., Manhattan Beach, started her instruction at Compton Airport, continued it while in Florida, and expects to take her flight examination when the weather clears. She is a housewife with 75 hours in the air with flying for a hobby.

Mary Pinkney, 361 Paseo de Gracia, is ready for her private flight test and is active in C.A.P. She is the mother of two children and still finds time for Women's Club and Hawthorne Hospital Auxiliary activities.

Margaret Ross, 4708 Binda, 2nd Rd., recently qualified for her private license. She is a member of the 99's Club and works as a dental assistant. Now that she owns a LaCombe airplane she spends all of her spare time studying flying or talking flying.

One of the senior woman pilots at TAP is Cythia Giltson, who has three children and has had a private license for 12 years. She is a member of the 99's and attends most of their conventions.

Iris Critchell, 1604 Via Montemar, Palos Verdes, is a free-lance flight instructor. She has been flying for 19 years, instructing for 15 and has been a member of the 99's Club for ten years. The 99's is an international organization of women fliers.

The above women have diversified interests in their daily activities, but have three things in definite common — they fly, love flying and take off from TAP. Some of them met for the first time when having their pictures made last week.

YOUR PROBLEMS by Ann Landers

"I Will Give You A Puppy . . ."

Dear Mrs. Landers: I am a boy, I am 11 years old. All my life I have wanted a dog. My mother is against it. My father says it's up to my mother. He won't help me. My brother is only six. He's no help either. My mother says she wanted 14 years to get good rings and a nice downpart. She says she isn't going to have a dog jumping on the furniture and making trouble on the rugs. I promised her I'd clean up after him. She says it's never the same after the damage is done.

I save part of my allowance every week and have a little day check from my grandmother. I can spend \$20 which should buy a pretty nice dog. I even offered to let Mom take the dog food money out of my allowance. She says the expense is only part of it. The extra work is the big problem. Please help me. If you print my letter and Mom says yes I will get a female and give you a puppy. Love—JIMMY

Dear Jimmy: Since your mother seems worried about the rugs and furniture why not try for a little dog you can house outside? Torrance four member you will feed and care for the dog and that you won't
