**BEFORE**  
 Buying A Foreign Car Consider This:

1. IS IT SAFE? Not all imported cars operate satisfactorily on U. S. highways and freeways. In fact, it's downright dangerous to venture onto a freeway in the smaller ones and if that is so - who would dare drive in local traffic?
2. IS IT ECONOMICALLY? Remember the answer to this covers the rest of the car, cost of gasoline, oil and upkeep, depreciation, etc.
3. IS IT COMFORTABLE? The designers of the imports were not concerned with the greater distances traveled by most U. S. cars, and built only for the forest and byways of the countryside.
