Houses for Rental Yield Three Times Greater Return Than Next Best Investment, Say Experts

A recent evaluation of the investment market shows that owning a home for the purpose of renting it out for income, returns the owner 15% profit (if self managed) — approximately three times the return on money invested in stocks and bonds.

And, the beauty of rental property is that anyone earning \$400.00 per month or more can become a landlord and enjoy the benefits of additional income.

If you own a "lazy lot"-a vacant lot or oversize backyard that costs you money in taxes and maintenance, you can put a second home on the front or back of your property; a single or multiple unit on your vacat lot and start enjoying added income right now.

Harmony Homes, leading Southern California "on-your-lot" builders, will advise with you on the possibility of your building a home for income or occurancy occupancy.

Harmony Homes, builders of over 7000 homes, with 18 of-fices throughout Southern Califices throughout Southern California, are the only on-your-lot builders: 1. offering a written money back guarantee on every home they build, 2. granted indemnity agreements by every major title company in the area, 3. with a rigidly enforced quality control system. Harmony Homes build quality 2, 3 and 4 bedroom homes ranging in price from \$4245.00 with 100% financing available depending on model and area. and area.
