Dear Ann: My boy friend is 18. He's a big, strapping, good looking guy but he's fuil of aches and complaints. I never know if we're going to be able to attend a dance or a party because he may not be feeling well. I've had to wise out on many good times miss out on many good times because he had a headache or an upset stomach. He carries a thermometer in

a pencil case and is always tak-ing his temperature. His mother babies him and wouldn't let him play ball in high school because she was afraid he'd get over-heated. We didn't go to the senior prom because he felt he was coming

I will also put so much starch in them he won't be able to sit down.-SUBURANELLA Dear Suburanella: Putting starch in a man's shorts is no way to get to the seat of a problem. Dear Ann. Dear Big Brother: Hitch-hik-ing is illegal in many states. But there's no law against of-fering a ride to a stranger who is standing on a curb. Even if there were, you couldn't con-trol it entirely because the de-cision rests with the individ-ual. ual
