

While production has been impaired and serious shortages have affected the automotive industry, we Ford dealers have ocen more fortunate than most dealers. Nearly half of the steel used in the production of Ford cars is made by the Ford Motor Company. Despite the slow-down necessitated by the trike. Ford production has never ceased.

Your interest in the wonderful new world of Fords has been nothing short of fabulous. You've found that this year's broad range of Fords—three entirely new lines—has made tant inroads into the problems of the high cost of car ship. There's a Ford for every purse—beginning with

the Ford Falcon, the lowest-priced six-passenger car built in America today. And this year, the glamorous Ford Fairlane 500 is priced \$142 less than last year's model.

Many of you have backed up your interest in the 1960 Fords with orders and have been pleasantly surprised to discover how rapidly deliveries are being made.

To those of you who have hesitated to place your order, this is to assure you that deliveries are rapidly appro normal. The sooner you act, the sooner you'll be driving around in the newest of the new cars - the classic '60 Fords the new-size Ford Falcon and the brilliant Ford Thunderbird
