

e

by Roy O. Gilbert, M.D. Los Anegels County Health Eating out of a garden is a fine thing provided it is a vegetable garden. It seems almost flippant to periodically warn the public bery or to eat their ornamental

7

anyone except physicians. The most common offenders The most common offenders among the poisonous garden plants are castor bean, clean-der and the Jerusalem Cherry, although there are probably at least fifty other plants, in-cluding elephant ear, English ivy and the Bird of Paradise that give violent objections to being munched on by oblidern being munched on by children, or anyone else, for that mat-ter.

SO NUMEROUS are the plants which can be poisonous if eaten. that it is almost use-If eaten, that it is almost use-less to enumerate them ex-cept for technical reasons. The best advice that can be given to anyone is to overcome his curiosity concerning the taste of any plants except those which are commonly accepted as food stuffs.

as food stuffs. Parents should educate their children to these facts. In the case of infants or toddlers, about the only thing that can be done is to keep them un-der watchful eye, and in so doing, parents should not lose sight of the fact that house-hold cabinets, including me-dicine chests, contain many more attractive and readily available poisons than does the average garden.

. . .

IN CASE of poisoning, a physician should be called im-mediately. In the meantime, yomiting may be induced by giving a mixture of baking soda and water or by gagging the patient as he lies face downward with his head in a lower pisition. At the start of this summer vacation it might be appro-priate for parents to acquaint eager youngsters with the facts concerning poison ivy, poison oak, and so called "mushrooms" which might in fact be toadstools. And to fur-ther take the joy out of Ju-nior's young life it might be well to tell him that although the Indians and the trail blaz-ers of yesteryear did at times subsist on nuts, berries, and miscellaneous herbs, it might be better for Junior to try a pioneer's diet of sow-belly and bean. beans.

Street Work Due in Strip

A farflung street construc-tion project in the Shoestring Strip adjoining Torrance will be under way soon under a contract awarded today by the Board of Public Works. The work also entails opening, pav-ing and widening other streets in the area east of West-ern Ave., and south of 203rd St., the construction of appurtenant facilities, and the installation of storm drains and sewers. and sewers.

and sewers. Streets marked for improve-ment include Harvard Blvd., Denker Ave., 205th St., 206th St., 207th St., 209th St., and Torrance Blvd. Storm drain fa-cilities will be installed to drain flood waters near the in-tersection of Western Ave. and Torrance Ave., and the inter-section of 204th and 205th Sts. with Denker Ave.

Plans also provide for the installation of mainline sewers in 206th St. east of Western Aave. and in Torrance Blvd. between 208th and 209th Sts., and the relocation of a traffic signal at Torrance Blvd. and Western Ave. **Family Trip**
