YOUR PROBLEMS

by Ann Landers

"Hire A Private Investigator . . ."

Dear Ann Landers: Our 18-year-old daughter went to work in an office three months ago. She's met many nice young men but the one she sees the most has me worried. She says he's 26 but he looks 40. He never takes her any place except for a ride to neighboring towns "to see a movie or attend a band concert." When I ask why he doesn't take her to entertainment here she says she's never thought about it. He calls her at odd hours and seems to whisper on the phone.

My husband and I suspect he is married. We haven't said anything to our daughter but we are deeply concerned. How can we find out more about this man without letting her know we're checking? He's unfriendly to us, says "hello" and "goodbye" and seems to want to get out of the house as fast possible. Please help us.—W.P.

Dear W.P.: Hire a private investigating agency to check him out. The guy sounds kinky and no company for a naive 18-year-old girl.

Dear Ann Landers: My fiance and I were planning to build a home. My parents gave us an acre of ground as an engagement present. Hal's mother keeps thinking of reasons to postpone our marriage. Her last excuse was that he should pay off his car first.

We've had many fights over his mother's interference. Last night Hal suggested we break up completely. He wants me to return his birthday and Christmas gifts. He says his mother can use them. We also bought some appliances together. He says I can keep them if I pay him for half. Otherwise he says he'll pay me for half and give them to his mother.

The hurtful part of all this is I still love him. Do you think if we both give a little we can patch up our differences and have a good marriage?—STILL IN LOVE.

Dear Still: Hal doesn't want to "give a little." He only wants his gifts back.

Return everything, including the appliances. If he wants to pay you for half, fine, but don't press him. If the acre of land presented by your folks is in joint ownership, he should of course turn it over to you. Consider yourself lucky not to have gone through with this marriage.

Dear Ann Landers: I don't know what it takes before my wife learns her lesson.

We have three children, 11, nine and seven years of age. We live in a neighborhood divided with kids of all ages. (Continued on Page 10)
