Garden Checklist

1. Perennial plants are still available in nurseries. Year-old clumps of primroses and delphiniums will be showing up soon.

It's not too late to uproot an unwanted rose to make way for some new variety.

3. Toss snail pellets around flower beds for easy

control. 4. Fuchsia pruning should not be rushed. Mid-

February is time enough to start the job. Light pruning keeps Camellias compact and full. This can be accomplished nicely on mature shrubs

by taking short stems when you cut blooms.
