Thomas Sees Hope for Dope Bills

Despite defeat of three narcotic measures in Assembly committe which would have broadened search any seizure powers of enforcement officers, Assemblyman Vincent Thomas of San Pedro today expressed confidence that the legislature will enact effective new anti-dope laws this ses-

on.
The Assembly Committee on The Assembly Committee on Criminal Procedure rejected three bils, AB 205, 208, 308, which would have permitted law enforcement officers to have broad search and seizure rights in narcotics cases. Some of these rights were held unconstitutional by the Supreme Court in the Cahan case.

Knotty problem of the Legislature is to respond to Governor Brown's—and the poblic's—demand for stronger penalties in narcotics convictions, while giving enforcement offi cers a weapon with which to convict. The latter complain that many known violators of the laws have hitherto gone free on a technicality.

There is still strong hope for the anti-narcotic traffic bills of which I am a co-author. These bills increase penalties for violators, especially for those dealing with minors, while broadening the rights of searching officers," said As-semblyman Thomas.
