State Senator
Final passage of the smogcontrol bill and the m aster
plan for higher education were
the major achievements of the
1960 legislative session.
Air pollution in particular
has been a subject of great
concern to a great many people, and in my opinion it was
the single most important issue to be faced in the session
mined stand by our Los Angless County delegation, and
a willingness on the part of
legislators from other areas to
recognize the seriousness of
our situation, we now have a
law that will strike at the
major source of air pollution
as yet uncontrolled.

functioning.

state under the Rees-Richards
Act of 1959.

An appropriation of \$500.000
is provided for this purpose,
which I believe will represent
a considerable saving over the

of the session.

In its present form it is almost as strong as the bill I cally included except in those
