Torrance High's Editor Receives SC Scholarship

Barbara Adams, 18, daughter of Major and Mrs. George W. Adams of 3210 Sonoma has been awarded a tuition scholarship by the School of Journalism of the University of California. The grant is valued at \$500 and is given annually to an outstanding high school or junior college journalism student in California.

Miss Adams, who was graduated from Torrance high school last week, plans to enter SC in September.

She is a member of National Thespians, California Scholarship Society, Rally Club, editor of the school paper, class treasurer, and a National Marit Scholarship semi-finalist.

Riviera Coed In Special Summer Study

Joan Dianne Grimsley, a student at Torrance high school, who lives at 458 Calle de Aragon in Redondo Beach, was accepted as one of 34 superior high school students throughout the nation to participate in a six weeks summer honors program at the University of Southern California.

Each student, who has just completed the junior year in high school, will be able to earn six or seven college units from June 20 through July 29. Credits can be used later at USC and many other colleges and universities.

ALL THE HIGH school students will take a general studies course in "Great Issues and Ideas in the Growth of Western Civilization." In addition, each student may take an elective class in astronomy, bacteriology, written communication, engineering drawing, logic, elementary French, introduction to concert music, beginning acting, elementary Spanish, public speaking, or the law of contracts, sales, and negotiable instruments.

Seminars will be held during evening hours in the graduate lounge with 20 members of the Southern California faculty.

STUDENTS WILL live in campus dormitories, but may go home on week-ends if their parents live in the area.

By permitting capable young students to take college courses before graduation from high school, the benefit of this university experience can make itself felt in the senior year in high school, Southern California officials said.

Dr. Norman Fertig, assistant professor of international relations, just chosen by graduating students at USC as one of their eight finest teachers, will direct the summer honors program for the high school students.

Selfridge to Head Mobil Department

William J. Selfridge has been appointed employee relations manager for Mobil Oil Co.'s local manufacturing facilities, including the Torrance refinery and the Vernon manufacturing plant. The announcement was made by R. E. Lauterbach, general manager of Southern California manufacturing for the company.

Selfridge was formerly employee relations head of Mobil's East St. Louis refinery. He joined the company in 1948 and since then has been active in personnel and employee relations work in the Midwest.

Born in Philadelphia, Pa., Selfridge received his AB degree from Ursinus College in 1942. He is a Marine Corps veteran of World War II and holds the rank of Lt. Colonel in the reserves.

Selfridge's headquarters will be at the Torrance Mobil refinery.

Hoosier Picnic Set
All former Hoosiers and friends are invited to the Indiana State Society picnic at Bixby Park Sunday, June 26, from noon to 3 p.m.
