

# Schools Seek Interns for 1961-62 Term

Persons to serve in the Torrance teacher intern program next year currently are being sought by the Torrance Unified School District.

Under a cooperative plan with the University of Southern California, college graduates can obtain a teaching credential by serving as teachers' assistants in Torrance schools at the same time that they take required education courses at USC. Those accepted may seek either an elemen-

tary or secondary credential. Eligible are persons who hold liberal arts degrees from recognized colleges or universities, but who have not taken any education training. After successfully completing the year-long program and doing

student teaching in Torrance schools, interns will be given a regular teaching credential. Interns receive pay for serving as teacher assistants in regular classrooms, but not for student teaching. Further in-

formation may be obtained from the Torrance Unified School District Personnel Office. Similar programs have been carried out in other parts of the country and Torrance began the program last year.
