

ALMA SONNE  
Mormon Leader Here

## Mormon Elders Here Next Week For Conference

Elder Alma Sonne, an assistant to the Council of Twelve Apostles, and Elder Irvin B. Nydegger, a member of the General Welfare Staff of The Church of Jesus Christ of Latter-day Saints (Mormon) in Salt Lake City, will be the featured speakers Saturday, Sept. 9-10, during a quarterly conference of the Church's Torrance Stake.

Conducting the conference will be the Stake president Roland E. Gagon, 3332 Winlock Rd.

Sunday's general sessions, to which the public is invited, will be held at 9:30 a.m. and 2 p.m. in the Torrance Stake Center.

Elder Sonne is a prominent banking and civic leader of Northern Utah, in addition to his church assignment. He has been a leader in the Rotary Club and is chairman of the Board of Trustees of Utah State University at Logan.

Elder Nydegger is a director of the Welfare Plan.

Saturday evening, special leadership and welfare meetings will be held.

## TEA GREET 250 Teachers At Breakfast

The Torrance Education Assn. will welcome 250 new teachers at a breakfast to be held at the South High School Cafeteria tomorrow at 8 a.m.

Officers of the association will be introduced by James Armstrong, president, and the purposes and past accomplishments of the organization will be explained to the new teachers.

"Extending the official hand of welcome has been a tradition during the 14 years the Torrance Education Assn. has been in existence. We are proud of our Torrance schools and take every opportunity to instill our kind of enthusiasm in new teachers. We feel they came to Torrance because they wanted to. We want to help them want to stay," says president James Armstrong.

## Army Missile Featured at County Fair

A U.S. Army exhibit depicting the Army's progress in nuclear-age development and featuring two of the Army's latest missiles — the fantastic HAWK and the new SS-11 tank-killer will be featured during the Los Angeles County Fair, Pomona, Sept. 15 to Oct. 1, it was announced this week.

The Army's "Cavalcade of Progress" exhibit shows some of the end-products of the military's research and development program with emphasis on operational combat equipment. Purpose of the official exhibit is to point up some of the truly significant military developments often overshadowed by the dramatic impact of ICBM missile successes and satellite launchings.

Spotlighted in the exhibit is the U.S. Army's HAWK — a surface-to-air guided missile that can swoop down and destroy enemy aircraft at tree-top level. The Army's sleek 16-foot, low altitude killer is ringed American cities as a fixed installation weapon complementing the existing high-altitude aerial defense now provided by the Army's famed NIKE systems.
